

PEARY'S PROOF IS IN BOARD'S HANDS

His Polar Data Has Been Submitted for Full Examination.

DANES WILL NOT GIVE A WAIVER

University of Copenhagen Insists on Passing on Cook's Records.

Washington, Oct. 20.—Commander Robert E. Peary's proof records and observations that he reached the north pole April 6, 1909, were today submitted to the National Geographic society, and the board of managers of that body referred them for examination and report to a sub-committee of experts comprising Henry Gannett, chief geographer of the United States Geological survey, Rear Admiral Colby M. Chester, U. S. N., and O. H. Tittman, superintendent of the coast and geodetic survey. The society announced that the only question it had now to decide was whether Commander Peary reached the north pole on the date claimed. The experts designated by the society will hold their first meeting in a few days.

They will personally examine the note books and original observations made by Commander Peary and will see all papers brought back by him. The wide scope of the investigation renders it probable that the sub-committee will not report its findings for several months but when ready the report will be submitted to a meeting of the board of managers of the society, especially called for that purpose.

Danes Will Not Waive Claim.

While the meeting was in progress and shortly after the submission of the Peary data, a messenger brought a cablegram from the University of Copenhagen in reply to the society's request that the institution waive its claim to Dr. Cook's records. The cablegram read:

"National Geographical Society, Washington:
"Sorry. University regrets not able comply with your request."
(Signed)
"TORP, Rector."

Prof. Willis L. Moore, president of the National Geographical society, declared subsequent to the board meeting that the society believed that Commander Peary's claim that he reached the pole should be passed upon without further delay. The society is ready to make similar examination of Dr. Cook's original observations and field notes, Prof. Moore said, but as he promised to send them to the University of Copenhagen and the society will not have an opportunity of seeing them for probably some months it did not seem fair to defer action on Commander Peary's observation until Dr. Cook's papers were received.

DANES WILL NOT YIELD.

Copenhagen, Oct. 20.—The University of Copenhagen has declined to forego its privilege to the first examination of the north polar records of Dr. Cook. The authorities of the university today cabled to the National Geographic society at Washington as follows:

"Sorry. University not able to comply with your request."

Dr. Cook had promised first to submit his records to the faculty of the University of Copenhagen, but on Oct. 15 the university was requested to waive its claim of priority in favor of the National Geographic society which sought an early determination of the controversy which has arisen as the result of Commander Peary's charge that Dr. Cook did not discover the north pole.

Rector Torp, of the University of Copenhagen, today cabled to Dr. Cook the following message: "When will you be able to send the original observations and instruments?"

COOK WILL SOON BE READY.

Toledo, O., Oct. 20.—Dr. Frederick A. Cook said today that he will be ready to submit proofs of the discovery of the north pole to the University of Copenhagen within two months or possibly within a month. He will begin work upon his documents upon his return to New York immediately after the close of his lecture tour at Minneapolis next Monday.

"These documents will consist of astronomical and geographical data, observations and records," he said. "It was the original plan to submit these proofs first to the University of Copenhagen and there has never been any reason for changing it. There is no reason why the National Geographic society should be given precedence over any other society in America, and the records will be open to the inspection of all such societies after the University of Copenhagen has completed its investigation. My instruments cannot be brought from Etah until next summer."

Dr. Cook stopped off here at noon today on his way from Columbus to Ann Arbor, Mich., where he will deliver a lecture tonight.

WILL PASS ON CONTROVERSY.

Washington, Oct. 20.—An even dozen members of world wide standing constitute the research committee of the National Geographic society, which is to pass on the merits of the north polar controversy. The chairman is Henry Gannett, the chief geographer of the United States Geological survey. He is the author of topographic surveying books, statistical atlases of the tenth and eleventh censuses, the dictionary of altitudes and other books.

EXPERTS ARE TO BE CALLED HERE

Physicians Can Not Agree Between Smallpox and Chickenpox.

MARINE DOCTORS ASKED BY BOARD

City Health Department is Seeking to Stamp Out Disease.

In order to settle a dispute that has arisen among the physicians of the city as to whether the infectious disease that has made its appearance and is very prevalent among school children is smallpox or chickenpox Dr. H. O. Bruggeman, on behalf of the city health department, has written to the marine hospital at Washington and to the health department of Chicago asking that experts be sent here to make examinations and determine the matter.

There are a great number of cases that are genuine smallpox and there are as many that are mild and that local physicians have pronounced chickenpox, but all agree that the disease, whatever it is, is contagious and ought to be stamped out and just to satisfy everybody expert advice has been sought.

Local doctors are unable to reach an agreement in the matter and with this state of affairs the health board is greatly hampered in its endeavors to put down the disease and the great object to be attained in calling in men who are familiar with smallpox is to get the doctors together and proceed on the proper lines to stop the infection.

School House is Closed.

On account of the prevalence of the disease in the west end and the fact that it has made its appearance among the pupils of the Washington street school who have been transferred to the old high school building on Berry street two of the rooms were closed this afternoon for fumigation and will be reopened on Friday morning. These two rooms are isolated and it was not thought necessary to close the building.

A number of cases were not reported to the health department and in many instances physicians were not even called to treat children affected with the disease and this caused it to spread before the health department was aware of its existence.

House to House Canvass.

To meet this a physician has been sent out from the department to make a house to house canvass in the infected districts to be certain that there are no cases now that the department has not been advised of and it is believed this will result in placing several under quarantine.

New cases reported to the health department today are Herbert Lomas, 1818 College street; Thera and Gertrude Heyden and Mamie Mayland, 816 Lavinia; Linda Kayser, 2216 Broadway; a case in the Lundenberger home at 441 Brackenridge street, and one at 1405 Fairfield avenue.

WRIGHTS START A SUIT TO CHECK FRENCHMAN

Ask Injunction to Prevent Flight in Aeroplane That Infringes.

New York, Oct. 20.—Wilbur and Orville Wright, the aeronauts, through counsel, applied in the United States courts here today for an injunction to restrain Ralph Saulnier from making flights in the French flying machine which he bought to this country a few weeks ago. Saulnier's machine is a duplicate of the one on which Blériot crossed the English channel, and the Wrights contend that it is an infringement of their patents. The application asks for damages and the power to destroy the Saulnier machine. Saulnier has been attempting flights from Amper, N. J.

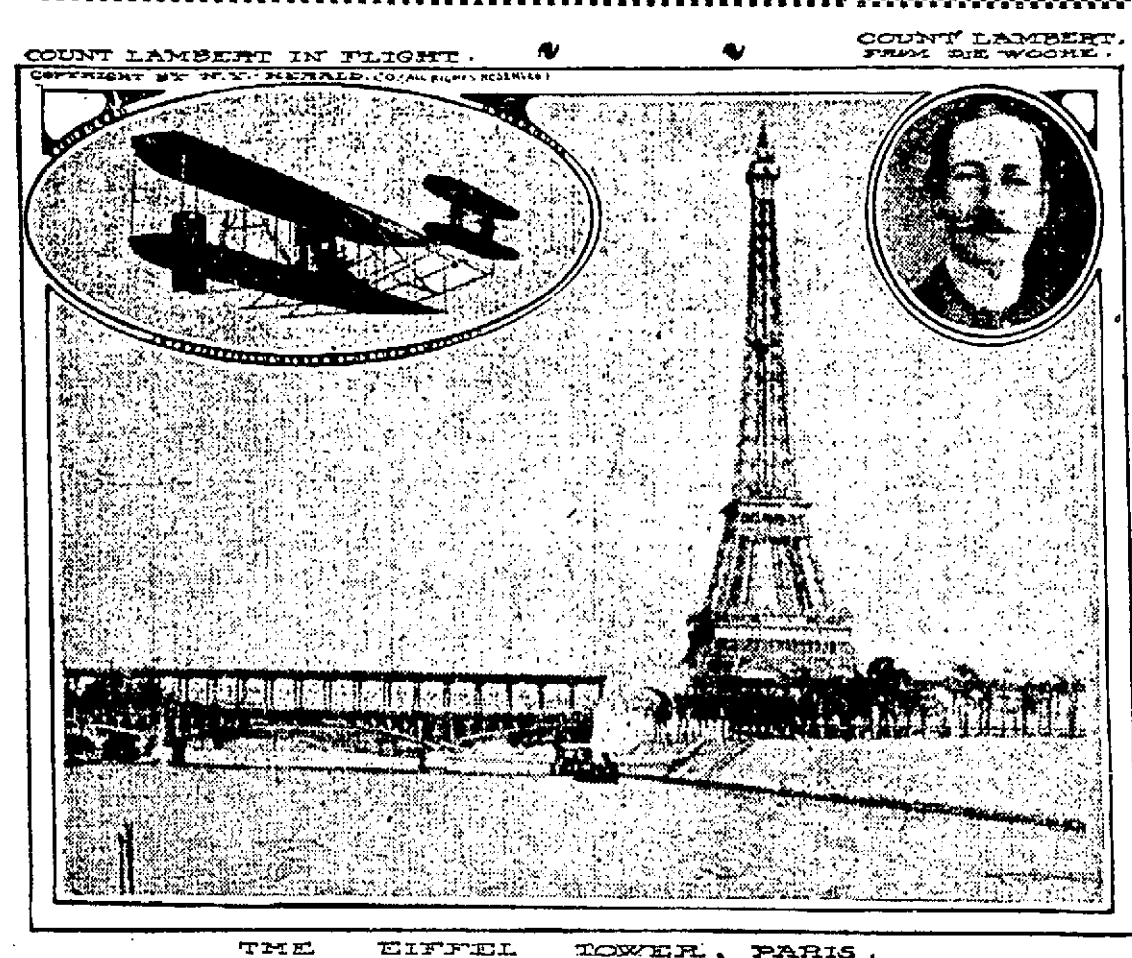

STUDENTS MAKE FLIGHTS.

College Park, Md., Oct. 20.—Three brief flights were made at the government aerodrome early today. In the first flight, Lieutenant Humphrey manipulated the air craft while Mr. Wright sat next to him ready to relieve him in case of emergency. They were in the air for only three minutes. This flight was followed by one of seven minutes duration with Lieutenant Lahm and Mr. Wright in the machine. Following the practice flight Mr. Wright took the aeroplane aloft in a light breeze but came down after two and one-half minutes declaring that the wind was treacherous. Mr. Wright and Lieut. Humphrey went to Washington after announcing that training flights would be resumed today late.

POPE PIUS WATCHES FLIGHT.

Rome, Oct. 20.—One of the Italian military dirigible balloons came from Boccione to Rome, a distance of nineteen miles in thirty minutes today. The dirigible executed evolutions over the city and passing over the gardens of the Vatican was seen by the pope, who was taking his daily walk at the time. The pontiff stopped to watch and admire the evolutions. The dirigible flew so low that its occupants could clearly be distinguished.

EIFFEL TOWER, PARIS, AND THE WRIGHT AEROPLANE IN WHICH COUNT DE LAMBERT CIRCLED THE LOFTY PINNACLE.

TAFT IS HAVING A JOYFUL TIME ON TEXAS RANCH

President Making the Most of His Days of Rest Away from Mob.

Gregory, Texas, Oct. 20.—Thoroughly enjoying his brief experience as a ranchman and the solitude that comes of being three miles away from the nearest settlement, President Taft slept late again this morning and then went to the golf links for a game with his brother, Charles F. Taft.

The fact that Secretary of War Dickinson and Capt. Archie Butt bagged 50 game ducks yesterday should not tempt the president to shoulder a gun and hike for the fresh water tanks. Secretary Dickinson is a crack shot and is credited with a majority of yesterday's bag. This afternoon the entire presidential party set out for Rincon, eight miles away, to witness a round up of sheep and cattle, the branding of some mavericks and a roping contest between the cowpunchers.

NO FINE TOGGERY ALLOWED.

Memphis, Tenn., Oct. 20.—Not a silk hat or frock coat will be worn by the committee of business men who greet President Taft on his arrival here on Oct. 27. The ban has been placed on this form of dress on the ground that the president's visit is one of purely commercial significance and he is to be entertained by the business men in a business-like way.

GIRL WEDS FATHER OF HER LOVER IN MARION

Youthful Swain Was Pointing for It, But Dad Saw It First.

Marion, Ind., Oct. 20.—Ralph Butler, 20 years old, of Charlotte, Mich., went to Anderson to claim Miss Daisy Woods as his bride only to find that she had already married his father, Daniel S. Butler, who recently procured a divorce, and that they are at Evansville, Ind. The young man was heart-broken when he learned that the woman upon whom he had bestowed both his affections and money had eloped with his father.

The girl left the Michigan town, according to young Butler, last Thursday to go to Anderson, where she has an aunt, and it was arranged that he should join her yesterday and their wedding would follow. He had given her \$40 in money, he says, and purchased for her a dress that was to be her wedding gown.

Reaching Anderson yesterday Butler Jr. visited the aunt's home, but failed to find the girl in waiting. The aunt had just received a letter postmarked Evansville that told of the girl's marriage to the senior Butler. The young man had courted the girl while she was employed as a domestic in his home, but he had not known of his father being a rival to his suit.

The boy came to Marion tonight en route to his home in Michigan. He is practically penniless, having according to his story, advanced most of his money to the girl he intended to wed, and he sought shelter for the night at the police station. He has with him Miss Woods's letter which tells of her marriage to his father. He intends to take the letter back to his mother, who only recently secured a divorce.

BUCHANAN'S DEATH DUE TO NATURAL CAUSES

Autopsy Shows American Diplomat Was in Bad State of Ill Health.

London, Oct. 20.—The verdict at the inquest into the death of Wm. L. Buchanan, the American diplomat, whose body was found in the street late Saturday night, was returned today and is to the effect that "death was due to natural causes."

Dr. Trevor, of St. George's hospital, who made the autopsy, stated that Mr. Buchanan had suffered from fatty degeneration of the heart, the presence of gall stones and incipient Bright's disease. Death, he said, resulted from heart failure consequent upon the condition of fatty degeneration and diseased blood vessels. The physician said there was no evidence of apoplexy. Dr. Trevor said that a small box of tablets had been found in a pocket of Mr. Buchanan's clothing. The odor indicated that the tablets were used to aid digestion. Witness said that there were no marks of injury on the body. The policeman who searched the clothing of the diplomat said that he found \$25 in gold and other money in the pockets.

A memorial service for Mr. Buchanan was held today in All Saints church, at Norfolk square.

The American embassy was represented by its secretary, John R. Carter, and second secretary, Craig W. Wadsworth.

TYRUS COBB MEETS ASSAULT CHARGE WITH BOND

Hastens to Cleveland to Surrender After Being Indicted.

Cleveland, Ohio, Oct. 20.—Tyrus Cobb, right fielder for the Detroit American base ball team, wanted here on the charge of cutting George Stanfield, with intent to wound appeared before Judge Schwan in common pleas court today pleaded not guilty and his trial was set for November 22. Bail was fixed at \$500.

Cobb was secretly indicted and the county officials have been arranging to extradite him. He walked into the sheriff's office today accompanied by his attorney, Robert McIsen, and Frank Navin, owner of the Detroit team. They went to the court room where the indictment and the details were arranged.

It is alleged in the indictment that the attack on Stanfield, who is a watchman at the Hotel Euclid, occurred on the Detroit team's last visit to this city. An altercation took place in which Stanfield was badly bruised. Later Cobb made a settlement with the night watchman. The county grand jury took up the case independently.

The concert which was to have been given Friday evening by the Emanuel Juniors has been postponed until further notice.

THE WEATHER.

Chicago, Oct. 20.—Illinois—Unsettled, with showers tonight and probably Thursday.

Indiana, Lower Michigan and Ohio—Rain tonight and Thursday; rising temperatures.

PELTIER DENIES HE PASSED FORGED CHECK

Says He Has Not Been in the City for Twenty Years.

Detective Harry Grimme returned at noon today from Martinsville in charge of a man who gave his name as J. C. Peltier and who is charged with having passed a worthless check for \$15 on David Crosby, clerk at the Baites hotel. He denies his guilt and says he has not been in Fort Wayne for twenty-two years and that upon the occasion of his last visit he made the acquaintance of J. C. Peltier, the local undertaker, whose initials are the same.

He was locked up at Martinsville on the charge of having bought a bill of goods there of \$21, for which he gave a worthless check drawn for \$30, and received \$9 in change. W. H. Knapp, proprietor of the hotel, and Mr. Crosby visited the station this afternoon, but neither was certain about the identity of the prisoner.

The man the authorities are seeking gave the name of Kelly and he made it known that he owned some fine race stock and was seeking a location for a sales barn. He went out into the country with a real estate agent, who introduced him to a bank teller and then "hook" him because he tried to borrow 50 cents to pay for a round of drinks.

He stopped at another hotel and after he had been there a day and a half he asked the Baites people to pay his bill so he could move and this was done. Then he said he had a car of horses coming in and had to go to Lima to see about them and asked to have the check cashed.

Coleman Not Arraigned.

Alonzo Coleman, who was brought back from New York yesterday by Detective Lenz, was not arraigned in the city court this morning, but arrangements were made to have him enter a plea during the day in the circuit court.

The detective says Coleman's father is well to do, but he would not agree to settle up the case for his son. The prisoner asked the detective to allow him to try to escape and then shoot him while they were returning from New York.

ROOSEVELT PARTY IS WELL.

Hunters Go in to Naivasha After Long Expedition.

Naivasha, British East Africa, Oct. 20.—Col. Roosevelt accompanied by R. J. Cunningham, the hunter and guide, arrived here today. All the members of the hunting expedition are well. Edmund Heller, the zoologist of the party, returned last night having ascended Mount Kenia to a height of ten thousand feet or within 300 feet of the timber line. Mr. Heller said that Major Tarns was continuing the ascent, hoping to reach a height of 15,000 feet. Mount Kenia is an extinct volcano rising 17,200 feet and Mr. Heller said it was impossible for the climbers to reach the peak. With the exception of Col. Roosevelt the members of the expedition have at one time or another experienced slight attacks of fever as the result of frequent changes of temperature. All are now in good health.

MRS. HERRING GETS DIVORCE.

Wife of Head of Order of Eagles Says He Was Cruel.

South Bend, Ind., Oct. 20.—Florence D. Herring today was granted a divorce and \$10,000 alimony from Frank D. Herring, supreme president of the Order of Eagles. Mrs. Herring charged cruelty and desertion, and Herring, though represented in court by an attorney, did not contest.

Herring was a candidate for the nomination of lieutenant governor before the last state democratic convention.

SLOT MACHINES ARE UNDISTURBED

Head of Police Department Knows of the Fact, But Makes No Move.

GAMBLING MILLS RETURN TO TOWN

Police Head's Edict a Few Months Ago Made Merely to Kill Time.

Chief of police Martin H. Ankenbruck has known since early Monday morning that the vicious nickel-in-the-slot machines have made their appearance in the city and has been informed that there is an ugly report on the street to the effect that it costs the agent \$300 to "get in" Fort Wayne, and there have been no arrests nor have the machines been ordered out.

Has Not Yet Looked.

He stated when the information was given him that he would look into the matter and although it would not have taken an hour to find most of the machines that are in operation and less than ten minutes to have made one or two arrests the machines are still running unmolested on the presumption that the administration will stand for them on the eve of the city election.

A few months ago the machines were ordered out by the police with a grand flourish but not until so much publicity had been given the matter that the city officials thought it best not to go into a political campaign hampered by any greater load than had already been heaped upon them by the publication of the fact that vice was allowed to go unmolested until public clamor made it necessary to suppress it for a short time at least.

Patrolmen Know It.

City patrolmen know that the slot machines are on their beats but they are not allowed to take any action more than to arrest a drunk or report an accident without orders from headquarters and these have never been given in relation to the slot machines and they have been running along for the last ten days.

The agent for these machines is the responsible man and the police have had ample opportunity to ascertain who he is but this has not been looked into, and presuming that he will not be disturbed, he has become bolder every day and will have the town supplied with machines in a few days.

It Was Just Froth.

In the last crusade the chief announced that he wouldn't be bothered any more and the first man that he found with a machine would be given a ride to headquarters along with the device but this is just what has not happened. The machines are to be found easily and the chief knows where they are.

The machines in operation are of the same kind that have been in use before. The mechanism is absolutely controlled by the maker and only what is known in gambling parlance as a "rank sucker" will go up against them. Nobody has any part of a chance to win but they are popular because they do not require as big stake to get into the game with.

LOOKING FOR BANK ROBBERS.

Bold Cashier Used His Gun and Saved the Cash.

Dayton, Ohio, Oct. 20.—The local police today are searching for two men who yesterday afternoon entered the bank at West Manchester, 25 miles west of here, and attempted to hold up Cashier J. Warren Leas.

Leas seized his revolver and fired two shots at the men, who thereupon ran from the bank. The would-be robbers were in a buggy and drove toward Dayton with a posse of West Manchester citizens in buggies and automobiles in pursuit. They abandoned their buggy when near Dayton and eluded their pursuers by taking to the fields. It is believed they made their way into Dayton.

WITH HIS CLOTHES ABLAZE.

Factory Hand at Peru Runs Frenzied Through the Works.

Peru, Ind., Oct. 20.—With his clothing ablaze from the explosion of a can of gasoline, Frank Gaulie, an employee at the Motor Gas Engine works, ran through the plant pursued by fellow workmen until he had exhausted today. He probably will die.

Omer Helvie was cleaning an engine with gasoline from a can. It took fire and Helvie not knowing that Gaulie was behind him, threw the can backward. It struck Gaulie and the burning oil poured over him. He ran blindly to escape the flames.

SPAIN PUTS ON THE SCREWS.

Madrid, Oct. 20.—Minister of the Interior Llaeterra issued today an order prohibiting the anti-government manifestations on Sunday which are being arranged in this city and throughout the provinces. A demonstration of students against the restoration of the law which permits the payment of a money indemnity in lieu of military service was broken up by the police today.

WANTS BIG DAMAGES.

San Antonio, Texas, Oct. 20.—Because he was imprisoned during President Taft's visit here, John Murray of Chicago, today filed suit for \$25,000 damages against John E. Wilkie, chief of the United States secret service, Joe Priest, local detective and Fred H. Lancaster, deputy United States marshal. Murray alleges he was jailed during Taft's stay on a false charge. He is secretary of the Political Refuge and Defense League and was arrested on a charge of violating the neutrality laws. He was released Monday for lack of evidence.

EACH IN CLAIMS OF ROSEATE HUE

Schmidt Will Have Larger Majority Than Hosey, Says Mr. Gandy.

GRICE BY 1,500 SAYS CARPENTER

Nothing But Victory Visible at Either of the Party Headquarters.

Armed with a search warrant, one might today ransack both the democratic and the republican city campaign headquarters from cellar to garret without finding anything even remotely resembling the admission of a possibility of defeat in the forthcoming city election, now less than two weeks distant. Nothing but victory is visible, and to all outward appearance the directing staffs of both the Schmidt and the Grice forces are either in a happy frame of confidence or are doing an admirable job of bluffing.

"Mr. Schmidt will win by a larger majority than was given to Mayor Hosey four years ago," is the way Chairman Gandy, of the democratic committee, puts it. Mayor Hosey's plurality was something like 1,400.

"Mr. Grice will be chosen mayor by a plurality of 1,500" is the way it looks when one views the situation through the spectacles of Chairman Carpenter, of the republican committee.

Mr. Schmidt's friends declare that his cause is winning adherents daily; that the people have confidence in his fitness and equipment for the place; and that his attitude on municipal affairs is the popular one. He is delivering several addresses daily. Meanwhile it is pointed out that Mr. Grice is developing into something of a speechmaker himself, and that his manner of glad-hand campaigning is adding vastly to his strength. An occasional beat is being placed by men who are willing to back up their guesses with cash, and in some instances odds of 2 to 1 have been offered on the democratic nominee.

No meetings are on the democratic program for this evening, but, on Thursday night three are scheduled. Mr. Schmidt, Judge Erwin and Dr. H. O. Bruggeman will speak at East Croighton avenue and Winter street; Mr. McCullough, A. E. Thomas and Guy Colerick are the speakers at Schroeder's hall, and Mr. Schmidt, Mr. Scherer, F. H. Kleckamp and Mr. Truettchen will be the speakers at 1325 Fairfield avenue.

Friday evening democratic oratorical activity will be centered at St. Mary's avenue and Spring street, where the speakers will be Mr. Schmidt, John W. Eggenman and Herman Strodel.

This evening the republicans will hold meetings in the Sixth and Fifth wards. The Sixth ward meeting is at Cotter's lively stable on Fairfield avenue, near DeWald street, where Mr. Grice and the other nominees, as well as W. C. Geake, Judge Skelton and D. Burns Douglas will speak. In the Fifth ward Mr. Grice will speak at 1505 West Main street, and others on the list are Harry Pfleger, W. N. Ballou, Judge Heaton and A. W. Parry.

Two republican meetings are scheduled for Thursday evening. In the First ward, at Madison and Monroe streets the speakers will be J. B. Harper and W. N. Ballou in addition to the nominees, and at Vogeley's hall, 1223 Maumee avenue, Dr. A. P. Buchanan and H. G. Hogan will supplement the addresses of Mr. Grice and the other republican nominees.

Judge R. K. Erwin delivered a democratic address in the Nebraska division of the Fifth ward last evening in which

BLACK HAND PAIR IS HELD ON CHARGE OF CRIME

Police of Easton, Pa., Make an Important Capture of Italians.

Easton, Pa., Oct. 20.—The local police last night arrested two Italians who are wanted in different parts of the country for murder, highway robbery and blackhand connections. The prisoners are Servin Arrigo, 21 years old who is said to have a number of aliases, and Michael Fiorinove, 23 years old.

An Italian detective recognized one of them, and with the assistance of the local police, took them into custody. They carried revolvers, knives, masks and other paraphernalia used by burglars.

Arrigo who is suspected of having murdered Joseph Siciliano at Pittsburg, Kas., in March last for his money, admits he was in that place at the time the crime was committed and says he is accused of the murder. The other Italian has been identified as the man wanted at Warwick, N. Y., for holding up and robbing an Italian of forty dollars. The prisoners are being held for the police of Kansas and New York.

Painful Dyspepsia

A Form of Indigestion Caused by Gastric Irritation from Undigested Food in the Stomach.

No kind of dyspepsia is better marked than that known as "painful indigestion," and it is also a very common affection. Pain, generally of a dull character, is felt after meals, and along with the pain, soreness at the pit of the stomach often exists, and in some cases the soreness is permanent. The tenderness is commonly restricted to a spot in the middle line of the body, immediately below the breast-bone.

It often extends upward under the bone, which consequently feels sore on pressure; or the tenderness is felt toward either side. This tenderness is commonly associated with an unpleasant feeling of heat—"a burning sensation"—as it is termed by some persons. There is also a "gnawing" and "dragging," as well as various other anomalous sensations complained of after taking food, and generally within an hour after eating.

As might be supposed the intensity of the symptom is proportionate to the quantity and quality of the meal. When the stomach is empty, a sensation of craving or emptiness gives most trouble. This often causes a false appetite, which, by inducing the person to eat heartily aggravates the sufferings. Thirst generally causes much annoyance; heartburn, water-brash, acidity, nausea, and headache are not infrequent attendants. The tongue is usually coated and from a mere inspection of this organ the condition of the stomach can often be correctly told.

It is a common error with persons who suffer from stomach pain caused by indigestion and gastric irritation, to use such drugs as chlorodyne, Hoffman's Anodyne, and other "pain killers" for its relief. Such treatment is a great mistake. While these drugs afford temporary relief to the dyspeptic pain, they have no effect whatever in removing the cause.

STUART'S DYSPEPSIA TABLETS remove the cause. By completely digesting all the food in the stomach, there is no further possibility of the occurrence of this disagreeable form of dyspepsia with its painful manifestations, and other concurrent symptoms. All of the irritation of the stomach, lining and stomach-nerves as the result of the undigested food lying in that organ and undergoing fermentation and decomposition, is quickly done away with.

But not only is the form of dyspepsia which is accompanied by pain cured through the use of these digestive tablets, but also every other form of indigestion, as there are many kinds in which stomach pain does not occur, but where there are many symptoms equally disagreeable, disconcerting, disconcerting and discouraging.

Stuart's Dyspepsia Tablets contain, in a highly concentrated form, powerful anti-dyspeptic ingredients, which digest rapidly and thoroughly food of every kind, including proteids, nitrates, carbohydrates, etc. A single grain will disintegrate and digest 3,000 grains of food.

Purchase a box from your druggist at once (price 50 cents), and get rid of the pain, discomfort and other disagreeable symptoms of dyspepsia. Also send us your name and address for free sample package. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

WIFE SAVES HUSBAND.

Mrs. Manford Hensil Beats Off Angry Bull Which Was Goring Him.

Mrs. Manford Hensil, wife of a dairyman residing on the Huntington road, four miles west of Fort Wayne, probably saved the life of her husband a few days ago, when by the vigorous use of a big club she succeeded in beating off an infuriated bull which had attacked him in the barnyard. The animal had knocked Mr. Hensil down and was in the act of goring the prostrate man with its horns when the wife came to his rescue. Mr. Hensil sustained some painful bruises, but is recovering nicely.

Iron Beds and Brass Beds

It would seem as if not another store in the state ever sold a metal bedstead save the Fort Wayne Outfitters Co., and perhaps there's a cause for this. Take for example the iron bedstead illustrated. Why, you would almost imagine that the junk dealer would pay you more by the pound than our special sale price.

LATEST ADDITION TO GERMANY'S MODERN NAVAL DEVELOPMENT.

Bremen, October 18.—The battleship Westfalen, the first vessel of the super Dreadnaught type built for the German navy, in a trial trip exceeded her contract requirements, developed a speed of twenty knots, while her engines indicated 24,000 horse power. Her contract calls for a speed of nineteen knots with 20,000 horse power. The Westfalen was laid down in

1907 and launched on July 1 of the following year. She is a sister ship of the Nassau, the Rheinland and the Posen. The trials of the Westfalen had to be postponed on account of the difficulty of bringing such a leviathan down the river Weser from the yard in which she was built at Bremen-Groden. She grounded on her way down and had to be hauled off and taken back to her birthplace.

The Westfalen has a displacement of about 18,500 tons, is 451 feet long, with a beam of 83 feet, and draws 26 feet 3 inches of water. Her main armament, which consists of twelve 11-inch guns, is arranged by pairs in six turrets—one forward, one aft and two on either broadside. These powerful weapons, according to a recent table of naval ordnance, weigh just about 41 tons apiece and fire projectiles of 769

pounds' weight, which leave the muzzle at a velocity of 3,250 feet a second.

Miss Sheridan's age was 22 years, 7 months and 24 days. She was born in this city, graduated from the Normal Training school and last year was appointed a teacher in the Hamilton school. Toward the close of the school year her health began failing, and the state of the young woman's health alone prevented her reappointment for the present term. Miss Sheridan was a most admirable young woman, and possessed the warm regard of a very large circle of acquaintances in this city.

ARTIST GOES AFTER A WELLS COUNTY FARMER

Says His Wife Was Stolen and He Seeks \$5,000—
The Courts.

Frederick Van Keuren, an artist engaged in decorating the Scottish Rite cathedral, has filed in the Wells county circuit court a suit for \$5,000 damages against George W. Baluser, a farmer, whom he charges with having alienated the affections of Mrs. Van Keuren.

The complaint was prepared here by Judge R. B. Dreihelms and sent to Bluffton to be filed. Van Keuren alleges that he was married to Mary Duffey on June 3, of this year, and lived with her until August 3, when she packed up his household goods and went to Wells county, where she is living with Baluser on his farm.

He says that immediately after the marriage Baluser began to make false statements to his wife with a view of poisoning her mind against him and that when he discovered she was in love with her suitor he attempted to reason with her, but nothing he could do would induce her to give up her lover.

Further he charges that Baluser visited his home during his absence and arranged with Mrs. Van Keuren to leave him and finally she said she cared nothing for her husband and pulled up stakes and went to Wells county. The wife filed suit for divorce some time ago, but it was shown she had not been a resident of the state for the time required by law and this issue is to be injected into the case.

Wife Enters a Suit.

Florence Smith has entered a divorce suit in the circuit court against Leo Smith and has secured a restraining order to prevent him from drawing his wages from the Fort Wayne Rolling Mills company. She says they were married Feb. 1, 1895, and have not lived together for a number of years and adds that he makes from \$300 to \$600 a month as a labor contractor for the company.

A few weeks ago, she states, he filed suit for divorce and induced her to sign a paper which she did not know the import of, but found on investigation that it was an agreement to allow a man named Dickman to appear for her.

She says she then employed attorneys and demanded an allowance and the husband dismissed his suit and is trying to dispose of his money so she cannot reach it. The restraining order was to prevent this. Emrick & Emrick filed the suit.

Divides His Property.

The will of Frank Bradtmiller has been probated in the circuit court and after the payment of \$300 back to the children of his daughter, Mary Horman, he devised the remainder of his holdings to his two daughters, Sophie Nelter and Louise Heine, in equal shares.

Tibbits Case Appealed.

The papers in the appealed case of Gertrude Tibbits, convicted in the city court of running a blind tiger on Eureka street, have been filed by City Clerk Munger in the circuit court. Prosecutor Thomas stated yesterday that he would endeavor to secure a date for a trial at once so that he can secure the evidence of Mary Eicks, who is in jail on a charge of larceny and whose unwilling testimony resulted in the arrest of the Tibbits woman.

Court Notes.

Rose Fowler is seeking a divorce from Harry Fowler, alleging that he is an habitual drunkard and forces her to support the family. She says he got a judgment for \$3,000 against a railroad company and spent the whole amount for liquor. Emrick & Emrick filed the suit.

Arthur Hensley has filed suit against William Collins and John C. Peters, of the Wayne hotel, for \$500. He states that he went to the hotel on business and mistook the elevator door for the office door. The elevator door had been left open and he fell into the cellar and was injured. P. B. Colerick is his attorney.

WIFE'S POULTRY IS SACRIFICED FOR DRINK

Husband Promises That He Will Do Better—The City Court.

Mrs. Henry Schneider testified in the city court this morning in a case in which she was the complaining witness against her husband for drunkenness, that a couple of ducks and some chickens that she had at her home were gone and she believed that he had sold them for drink, although he is a good carpenter capable of earning \$2.70 a day at his trade and is in demand.

She said that he spent his money for drink and that she was forced to go to work at the county infirmary to supply herself with food and clothing, as he did nothing toward her support but pay the rent. Schneider was truly repentant. He had never been arrested before and he was honest enough to admit he had not been doing the right thing, so the judge gave him a suspended fine of \$5 and costs and secured the promise of the wife that she would return and live with him as soon as he demonstrates that he is in earnest and sincere in his determination to quit drinking.

The Other Cases.

John C. Mills is the name given by a Bluffton man who said that he now and then has a crazy spell and that he was not drunk when he was arrested, but was suffering from the ef-

fects of one of those spells. His case was continued until tomorrow morning for investigation.

James Haley, who was just out of jail in Lima, where he was held for nearly three months, was found drunk in the Pennsylvania yards and he was fined \$5 and costs.

UNCLE JOE FIRES A LARGE BUNCH OF INSURGENTS

La Follette and Cummins are Read Out of the Grand Old Party.

Elgin, Ill., Oct. 20.—Speaker Joseph G. Cannon opened fire on the republican insurgents last evening in an address before the Illinois Mayors' association at the Elgin Opera house.

Senator Cummins, of Iowa, and Senator La Follette, of Wisconsin, and their followers practically were read out of the party. Speaker Cannon defended himself against the charges of czar rule and branded as false the report that six of the Illinois representatives will join the revolt against him. Vigorous denial was made of the assertion that his election as speaker was brought about through a deal with Tammany. W. J. Bryan was dealt with in blistering terms and was declared to be two-faced in his attitude on the house rules.

Why Fowler Was Dropped.

Representative Fowler, of New Jersey, who recently attacked the speaker, came in for incidental mention. Mr. Fowler's refusal to report to the house the emergency currency measure was given by intimation as the reason for dropping him as chairman of the currency and banking committee.

The new tariff act was characterized as the best ever passed in the history of the country. Speaker Cannon spoke for nearly two hours, devoting his entire time to subjects relating to congress. More than 1,200 people were in the audience.

Cummins as Bryan Aid?

"I was over in Iowa last week and found that it is an open secret there that Senator Cummins not only proposes to join hands with Bryan, but he says the agitation will not stop and he will appeal to the people until the tariff is revised according to his notion," said Speaker Cannon. "It is well known that Senator Cummins is out to defeat every member of congress in Iowa who voted for the bill."

"In this campaign to be waged by Senator Cummins the issue appears to be whether the seven senators and twenty members of the house who voted against the tariff bill constitute the majority of republican members of congress and the president who signed the bill make up the republican party. These people under the leadership of Senator Cummins and Senator La Follette call themselves republicans, but if they are then I am something else."

Defends Tariff Bill.

"The Payne tariff bill did not suit me in every respect, but a majority of the members in the house were in favor of it and I bowed to their will in the points where I thought it might have been improved. As President Taft said at Winona, it was the best tariff bill from a protective or any other standpoint that has ever been enacted in the history of the republican party."

"You can't make a revenue bill except by compromise. People say a thing could be settled on its merits, and not by compromise or log-rolling. Maybe that is so, but it never will be so until Jehovah Himself changes the make-up of the human animal or Himself takes command of all legislation."

"There has been a lot of people and newspapers who have delighted in saying that I am a czar in the house and that I have more power than St. Peter. I tell you that all this story is but as the sounding brass and the tinkling cymbal, made to deceive the people."

Takes Rap at Bryan.

"After the McKinley bill was passed our democratic friends went to the country and said it was a bad bill, and they denounced Speaker Thomas B. Reed as a czar. Well, we lost the house as a result and a democratic speaker was elected. What did the democrats do but turn around and adopt the so-called Reed rules."

"William J. Bryan was elected to congress at that time, and he voted on two occasions for the Reed rules. And the house of representatives has ceased yet we find him in 1908 shouting that to be a legislative body and that Cannon is a czar."

"Now Mr. Bryan is coming forward and denouncing the Payne tariff bill as a fraud, and he frankly admits that he has no hope of securing a revision at the next session, but wants an issue for 1912."

"Any man who is ever speaker of the house will be elected by a majority and there will always be a minority. When elected if he does not exercise his duties in harmony with the majority and if he does not become the servant of that majority and stand firm and without fear you can write on his forehead coward and pottroon."

ACCOUNTING FOR MURDERS.

St. Petersburg, Oct. 20.—The police have received a dispatch from Paris informing them of the disappearance from that city of one of the principal agents of the central committee of social revolutionists. The police here think that this disappearance may have some connection with two mysterious murders recently committed in this city. In each case the body of a man was found decapitated and otherwise mutilated beyond recognition. The theory of the police is that the victims were revolutionists whose good faith had been suspected by their associates.

COINING LINCOLN PENNIES.

Mint Hardly Able to Keep Up With the Demand.

Philadelphia, Oct. 20.—So great has been the demand for the new Lincoln pennies that nothing else has been coined at the mint in this city since the end of June. The coinage of the copper coins in the three and a half months has reached the total of 70,000,000 pennies, which is equivalent to

the average annual output of the last decade.

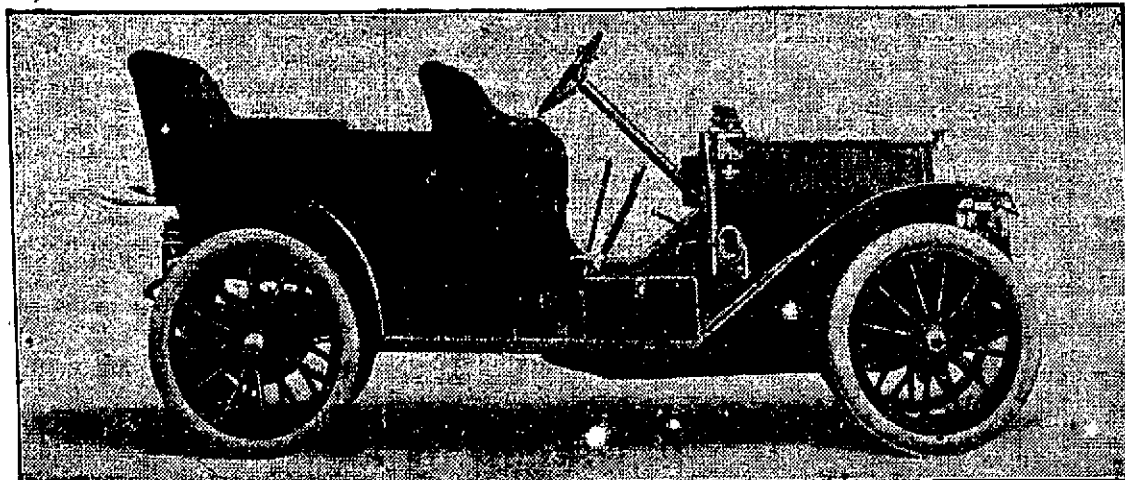

The Lincoln pennies, it is believed will in a comparatively short time completely supersede the old fashioned Indian head piece as the latter are in large numbers being returned to the mint for re-coining.

The Fort Wayne Musicians' union will hereafter hold its meetings Sunday afternoon instead of during the morning as has been the custom.

SPANISH SWINDLERS ARE ONCE MORE ACTIVE

**Ancient Tale of Rich Man

Washington, Oct. 20.—After a per-
iod of quiescence an adroit gang of
Spanish swindlers, who has for the
last fifteen years been exploiting cred-
ulous people in America, has resumed
activity. Within the last few days
letters have been received in Wash-
ington delicately approaching the re-
cipients for funds. While the scheme
is many sided the details vary in each
case, the basis of the appeal is al-
ways an injured damsel in distress.
Large sums of money are promised to
the confiding American who will put
up a small amount of cash to rescue
the unfortunate young woman.

In one case the alleged writer of
the letter was a Spanish banker, who
had embezzled the bank's hoard and
escaped to Russia, only to be arrested
and returned to Spain. He, however,
had taken the precaution to secrete a
document which would be indispensa-
ble to the finding of the treasure in a
secret pocket in a portmanteau and this
find he would divide with the Ameri-
can, who would take in charge his
young daughter and recover the prop-
erty at the place he would indi-
cate—for a present financial consid-
eration. In another case the alleged
writer and prisoner in a Spanish jail
was there because implicated in the
"Great Panama canal funds." He al-
so had secreted much treasure, the
results of his stealings, a portion of
which he was willing to bestow upon
the recipient, with whom the writer
claimed relationship, provided the lat-
ter would convey to America the writ-
er's beautiful young daughter, then in
the care of a faithful old priest, who
could not be trusted with the secret
of the embezzlement.

It is known to the state and post-
office departments that a number of
credulous Americans have fallen into
this trap, so that every effort will be
made to break up the gang.

JUROR'S MOTHER DEAD; PLOT?

St. Louis Police Investigate Rumor
That Vengeance is Following.

St. Louis, Mo., Oct. 20.—Because the
body of a woman found in a shallow
creek at Lee and Taylor avenues in
North St. Louis yesterday was iden-
tified as that of Mrs. James Satterfield,
mother of Thomas Satterfield, foreman
of the jury which recently convicted
Thomas Kane of second degree mur-
der, in connection with a political kill-
ing, the local police have begun a
searching investigation of the wom-
an's last hours.

It is rumored that the death is the
result of a project of vengeance di-
rected against the members of the jury.
Satterfield asserts that his mother
had no reason to commit suicide and
he could not account for her being in
the neighborhood of the creek, sev-
eral miles from the Bethlehem home
for aged persons, in which she lived.

THE FATNESS OF HEALTH.

Samosa Fills Out the Curves and
Makes Thin People Fat.

Perfect health and good, solid
beautiful flesh can only come through
the use of Samosa, the remarkable
flesh-forming food.

This makes the thin and scrawny
plump and robust; it mixes with the
food so that all of the elements that
make solid bone, firm muscle and
good flesh are thoroughly assimilated
and retained in the system.

There are thousands of unhappy,
nervous thin people who would look
and feel entirely different if they were
only fat and plump. Let them use
Samosa and they will soon notice re-
markable results.

These statements are confirmed by
Meyer Bros. Co., who offer to refund
the money to anyone buying and us-
ing Samosa who does not gain in
weight as promised. The risk is all
theirs. The thin and scrawny can buy
Samosa at Druggists Meyer Bros. Co.
store, with the knowledge that if it is
not successful it will cost absolutely
nothing.

Uncle Joe says if Cummins and LaFollette are republicans, then he is something else. He doesn't say what, and maybe it wouldn't be printable anyway.

A municipal paving plant will be all right provided the administration doesn't attempt to prosecute improvements as it does repairs—when it gets good and ready and work can no longer be put off.

The movable corduroy on Calhoun street is the emphasis that an advancing policy of administration recognizes the fitness as well as necessity of preserving the public property. For the same reason "keep off the grass" signs are occasionally seen in public parks.

The two marvels of the campaign as revealed by democratic observation are that any man admittedly intelligent could know so little as Jesse Grice and that any man not superhuman could not so much as Gus Schmidt. Strange that in a little race of this sort all the ballast should get into one vessel.

The Pennsylvania railway is going to spend twenty-five millions for a new depot and terminals in Chicago. It isn't disclosed how much the Pennsylvania is going to spend here for a new depot and terminals, but it will be a handsome sum and the fruits of the expenditure will be all that this city can desire. The big railway has been quite awhile getting to us in this respect, but what we are going to get is worth waiting for. America's greatest railway system does not do things by halves nor content itself with makeshift methods.

The polar controversy isn't settled, but there is somewhat less settling. The National Geographic society will soon be at Peary's proofs and in a few weeks the Dames will begin to pry into Cook's records. Meanwhile, just as a sort of bond to keep the peace, Cook might as well hike off for a fresh ascent of Mt. McKinley and Peary could be given something to do around the navy department. Just a chance that our geographic society and the Danish scientists will lock horns for a strenuous combat, in which case the public will need some rest for preparation.

There is not even a discussion of a "reasonable" or an "impartial" or a "satisfactory" or a "safe and sane" or any other old kind of law enforcement. Why should this question be ignored in the campaign? It is the only issue Mr. Schmidt cannot make the people believe Mr. Grice is incompetent. The people know better. He is just as capable as Mr. Schmidt, besides being free from the prejudices, red tape and slavery to set notion and narrow form

that are the inseparable accompaniments of long public service. A new man is always a man without barnacles and barnacles on government like barnacles on a ship may accumulate until there is no getting anywhere. But to get back to the issue—why will not Mr. Schmidt and Mr. Grice tell the people what they mean to do about enforcing the laws in this city?

Speaker Cannon has bounced Senators LaFollette and Cummins from the republican party. Other insurgents not quite so conspicuous are included in the ukase of the czar. In his speech reading the insurgents out the speaker did not mention Senator Beveridge, but it is to be assumed that Indiana's brilliant and aggressive representative in the upper branch of congress is likewise meant. If the speaker will cross the line into Indiana he may learn something to his advantage. Standpattism has no standing here. Senator Beveridge has the entire confidence and complete approbation of his party in this state and besides that the approving sentiment of practically all the democratic party. Speaker Cannon is beginning late to read progressives from the party. Not all who voted for the Payne-Aldrich bill want it understood by that token that Joseph G. Cannon stands for what they desire to be understood as standing for.

Candidate Schmidt cannot come on with his asphalt plant any too soon. If he is elected. Many miles of streets in Fort Wayne have deteriorated thousands and thousands of dollars in value during the past two or three years from neglect. Repairs that should have been made have been deferred until the streets have become not only rough and in some cases almost impassable, but in such wretched state that repairs will cost vastly more than if made when first needed. Several hundred thousand dollars worth of asphalt pavement in this city must be repaired next year or the pavement will go to ruin. The method of getting at the work—whether by contract or by a municipal plant—is a debatable. The necessity of doing it is not. Fort Wayne has got to spend some money for street maintenance. That's flat. This city for several years should have been spending more money along this line. There's more than a suspicion that an overdose of watchdogging in the comptroller's office has been an obstruction to a rational program of street maintenance in this city. However, independent of any result of the election next month, the asphalt streets now so sadly out of repair must be put in condition at the earliest opportunity of weather. Else a good many miles of costly pavement will become worthless.

SCIENTISTS PROBE CHARGES.

Trustees of New York First Church Issue Statement.

New York, Oct. 20.—Another move was made yesterday in the differences between Boston and New York, when the committee of inquiry of the First Church of Christ, Scientist, issued a statement. It had no bearing on the revocation of the rights of Mrs. Augusta B. Stetson and her seventeen practitioners to teach and heal, but sought mainly to justify the injury in New York after Boston had passed on the charges against these persons. The real feeling of the trustees is that Boston is trying to make a black sheep of Mrs. Stetson. They are fortifying themselves with evidence to support this view and have collected data to prove that her teachings on subjects too risky for clear statement in books were taught to her by Mrs. Eddy.

When lessons dealt with the various phases of demonology they needed to be handled so as not to shock students or bring public discredit on the belief in the Boston view, it is said. The idea was that these lessons should be taught by gradual approach and not off-hand or by plain speech, as was Mrs. Stetson's habit. The local trustees have been weighing the consequences of possible separation from the Boston control as bearing on not only the fortunes of the local church, but on its influence on the church at large.

TYPHOON SWEEPS HONGKONG.

Much Damage and Many Casualties Caused by Storm.

Hongkong, Oct. 20.—Many casualties attended a typhoon that played havoc with the native shipping and damaged other vessels at various points on the coast during the night. At this port the Standard Oil steamer Lyndhurst fouled the Japanese steamer Hongking Maru and both were damaged. At Macao the Portuguese gunboat Patria was lifted from its moorings and carried up the Canton river, where it stranded on a flooded rice field. Many houses were blown down in the vicinity of Macao, where junks and fishing smacks in large number foundered, involving many casualties.

COADJUTOR BISHOP INSTALLED.

Solemn Scene in Historic Church at Alexandria, Va.

Alexandria, Va., Oct. 20.—In historic Christ Episcopal church here, where George Washington attended religious services during the years he lived at Mount Vernon and in the presence of a distinguished assemblage of clergy and laity, the solemn ceremony of the consecration of a bishop took place today. Rev. Dr. Wilbur S. Lloyd was made bishop coadjutor of the Protestant Episcopal diocese of Virginia. A procession of clergy and laity from the parish hall to the church was most imposing. Right Rev. Wm. C. Doane, bishop of Albany, N. Y., preached the consecration sermon.

CORNERSTONE IS PLACED.

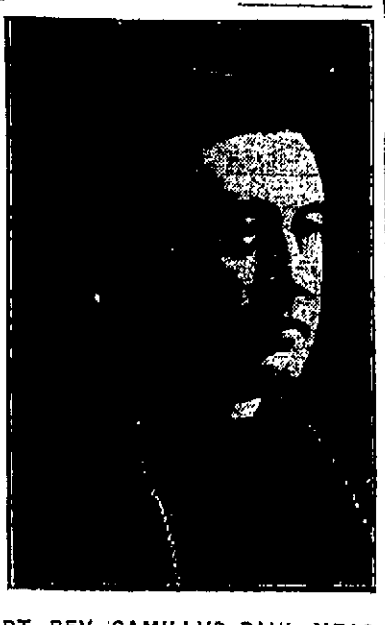

Worcester, Mass., Oct. 20.—The American antiquarian society laid the cornerstone of its new building in this city today. The ceremony was in connection with the opening of the organization's annual convention.

IN THE CITY'S CHURCHES

NEARLY ONE HUNDRED PRIESTS ATTEND REUNION

Tenth Annual Meet of Seminary Alumni—Bishop Greets Visitors.

With an imposing procession of prelates and priests, solemn pontifical high mass celebrated by Most Rev. Henry Moeller, D. D., of Cincinnati, a fine musical program rendered by the choir under the direction of Rev. Simon M. Yenn and later a most hearty and cordial address of welcome by Rt. Rev. Bishop Alverding, the program of the tenth annual reunion of the Alumni association of Mt. St. Mary's seminary, Ellenora, O., was auspiciously opened this morning.

RT. REV. CAMILLUS PAUL MEAS, D. D., Bishop of Covington, Ky., an Eminent Prelate Attending Alumni Meeting.

The mass and address of welcome at the Cathedral was followed by a business meeting of the Alumni association at the Knights of Columbus hall. Important matters were discussed and officers chosen as follows:

President, Rev. J. M. Feldman, Cincinnati, O.; vice president, Rev. John P. Durham, Marion, Ind.; secretary, Rev. Charles E. McCabe, Gas City, Ind.; treasurer, Rev. S. H. Hillmeyer, Winchester, Ky.; historian, Rev. A. M. Gerdes, Middleton, O.

An archbishop, two bishops, two monsignors and upwards of one hundred priests participated in the imposing ceremonies. The officers of the mass have previously been announced. Following the mass, Rt. Rev. Bishop Alverding gave the address of welcome. He prefaced his effort by stating that topics which pertained directly to the significance and import of the reunion would be discussed later in the day and that it remained only for him to cordially welcome the prelates and priests to the diocese and to the city of Fort Wayne.

"The fact is," said the prelate, "that although Mt. St. Mary's of the West does not aim to be a provincial seminary, nevertheless many priests of the province have gone forth from the great institution. In this diocese we have received many clergymen from Mt. St. Mary's. They have all been imbued with the priestly spirit and have done good work in the vineyard of the Lord."

"It may be that the occasion which brings us here to attend the annual reunion of the alumni may be an occasion of great comfort to all of you. I believe humanly speaking that we priests as we grow older, stand in need of consolation and encouragement, because as time wears on we are apt to lose some of that fervor and that spirit that was ours on ordination day, and hence an affair of this kind is peculiarly calculated to awaken in our hearts recollections of that happy day and revive its dispositions. I trust beloved fathers, you will take home with you recollections of comfort and of cheer, and therefore do I again most cordially bid you welcome to the city and the diocese of Fort Wayne."

Among the clergy attending were the following: Most Rev. Henry Moeller, D. D., archbishop of Cincinnati; Rt. Rev. Camillus Paul Meas, D. D., bishop of Covington, Ky.; Rt. Rev. H. J. Alverding, bishop of Fort Wayne; Rt. Rev. Mgr. John E. Murray, Cincinnati, O.; Rt. Rev. J. E. Oechtering, V. G., Fort Wayne; V. Rev. John A. Shee, president Mt. St. Mary's seminary, Ellenora, O.; Rev. John T. Gallagher, Cincinnati, secretary to Archbishop Moeller; Rev. F. W. Howard, Columbus, O.; Rev. M. P. O'Brien, Ellenora, O.; Rev. William L. Quartman, Piquette, Ill.; Rev. W. A. Rafferty, Jeffersonville, O.; Rev. M. Mulvihill, Rev. P. J. Hynes, Rev. J. H. O'Neill, Rev. R. G. Conner, Rev. William P. Clark, Cincinnati, O.; Rev. John F. P. Dwyer, Covington, Ky.; Rev. H. Heilemeyer, Winchester, Ky.; Rev. J. T. O'Connell, L.L.D., Toledo; Rev. A. Koswaff, New York; Rev. J. H. Hannan, Circleville, O.; Rev. A. C. Tabke, Chickasaw, O.; Rev. D. M. Halpin, Eaton, O.; Rev. Joseph Burwinkel, Cincinnati, O.; Rev. George Mayrhoef, Cincinnati, O.; Rev. A. M. Gerdes, Middleton, O.; Rev. E. A. Ryan, Franklin, O.; Rev. F. J. John Keller, Kendallville; Rev. John Keibler, diocese of Cleveland; Rev. Leonard Plumanns, Port Clinton, O.; Rev. Michael Ford, Barrydale, O.; Rev. William C. Miller, Huntington; Rev. Richard Flynn, Ohio, Ill., writer of the children's department of the Extension magazine; Rev. Fr. Graham, Nashville, Tenn.; Rev. John Tretmel, Plymouth; Rev. George Horstman, East Chicago; Rev. Simon M. Yenn, Rev. William C. Miller, Rev. Thomas Elsering, C. P. S., Fort Wayne; Rev. John Schmitt, Auburn; Rev. James Durham, Rev. A. Lafontaine, Fort Wayne.

The closing observance of the day was the annual banquet which was enjoyed at 1 o'clock at the Anthony hotel. An elaborate menu was served and later with V. Rev. Joseph A. Shee, president of the seminary presiding as toastmaster, toasts were responded to, by the archbishop and several of the priests. It was a most happy reunion throughout and thoroughly enjoyed by the many clergy attending.

Ask your doctor if alcoholic stimulants are not often very disastrous when given to nervous people. He will tell you why. J. C. Ayer & Co., Lowell, Mass.

Your nerves must be fed with pure, rich blood, or there will be trouble. Poorly fed nerves are weak nerves; and weak nerves mean nervousness, neuralgia, headaches, debility. Weak nerves need good food, fresh air, and Ayer's non-alcoholic Sarsaparilla.

The reports from the officers were all gratifying and the finances are in excellent condition.

JURY GIVES DECREE TO WIFE OF WHIP BATON.

Mrs. Frances Work-Burke-
Roche Batonyi Wins
in Court.

New York, Oct. 20.—The jury before which Mrs. Frances Work-Burke-Roche-Batonyi brought suit for divorce from Aurel Batonyi, the Austrian horseman, today returned a verdict in favor of Mrs. Batonyi. The verdict will have to be confirmed by the judge before a decree will be granted.

This verdict follows upon two years of charges and countercharges between the daughter of Frank Work, the New York millionaire, and Batonyi, who was associated with wealthy horse fanciers since he came to this country in 1889. Mrs. Batonyi sued for divorce on statutory grounds alleging at least ten instances of unfaithfulness. At the trial, however, she withdrew all but two charges, these involving her husband with two New York women. A long night ride in a taxicab with one of these women and a night spent in the apartment of the other were the allegations behind these charges.

It was during a coaching trip that Batonyi met Mrs. Burke-Roche, then divorced from her first husband, an English public man of some note. A brief courtship culminated on August, 1905, in their marriage.

A year later the news was broken to Frank Work. The aged millionaire flew into a passion, it is said, and Batonyi alleged, threatened that unless his daughter began suit to free herself from the union he would disinherit her.

Soon afterward an action for divorce was begun by Mrs. Batonyi, the husband began a suit in retaliation in which he named eleven co-respondents. He also sued his wife's father, her sister, and brother-in-law, her cousin and Mr. Work's confidential secretary, claiming damages aggregating \$1500,000 for the alienation of his wife's affections. These actions are still pending.

THE FORSAKEN GROOM.

Mother Pluck's Cupid's Dart From
Girl's Heart at Altar.

Sedalia, Mo., Oct. 20.—Just as the Rev. Harold Cooper, of the First Congregational church was about to utter the words that would have made Miss Lorene Mahoney the wife of H. O. Barry the young woman's mother rushed into the room and forbade the ceremony.

The bride-to-be became hysterical at the interruption and insisted that the ceremony proceed, but finally the mother's pleadings won her over and she left her intended husband and went to her home. Miss Mahoney is a Catholic and Barry is a Protestant. The mother insisted her daughter be married, if at all, by a Catholic priest.

The marriage license for Barry and Miss Mahoney was issued yesterday afternoon, but Mrs. Mahoney knew nothing of the wedding plans until just before the time set for the wedding.

RIOT AT A WEDDING OF POLISH PEOPLE AT HAMMOND

One Man Was Killed, Two
Fatally Wounded, and
Six More Injured.

Hammond, Ind., Oct. 20.—In a riot following a wedding party in West Hammond yesterday, one man was killed, two fatally injured and six were more or less seriously hurt.

John Potocki, age 24, was shot through the heart and killed; James Kries, his brother-in-law, age 26, was shot through the breast and is dying at St. Margaret's hospital; the head of John Kulczyk, of the West Hammond police, was split open and he is dying at his home. Another policeman was also struck on the head. A complete list of injured has not yet been obtained by the police.

A Polish couple, just married, gave a party to friends at a dance hall. It was a select affair, and a crowd of village rowdies, angered because they were not invited, tried to break up the party. Police aid was sought, and a gang of young toughs threw Kulczyk out of the hall before he could draw his revolver. The toughs followed him into the street, and he shot two as he lay on the ground with his skull fractured. Eight arrests were made.

SAYS CANNON'S END IS NEAR.

William Allen White Declares People
Are Tired of Uncle Joe.

Kansas City, Oct. 20.—William Allen White, the Emporia editor, and advocate of things as they ought to be in the Sunflower state, came to Kansas City yesterday bringing the news that the reign of things as they are in Kansas congressional politics is approaching dissolution. The state is going to make a clean sweep, Mr. White says, and elect no Cannon republicans to the Sixty-third congress. Every Cannon congressman is to meet opposition. No reactionary representative is to be overlooked.

"Emma Goldman in her palmist days," said Mr. White, "never made so many anarchists as Joe Cannon. The people are tired of Cannon. They are going to retire him from public life."

"Here in the west and middle west," he declared, "the great movement for progress is well under way, and nothing can stop it. Before the end of the Taft administration the progressive element of the republican party will be in control. The end of things reactionary is in sight."

"I believe that the Parsons charges against Cannon confirm all that his enemies ever have charged against him. No scandal in American politics has been more disgraceful than that, and any Kansas congressman who attempts to stonewall by Cannon will have to defend his robbery of elections and prostitution of the ballot."

ECHO OF OLD TRAGEDY.

Juror's Answer Recalls Murder of
Pearl Bryan.

Connersville, Ind., Oct. 20.—Thirty-five talesmen were examined Monday and seventeen yesterday from Franklin county without securing a jury to hear the case against John Wilson, charged with the murder of his wife. Another list of talesmen from Franklin county was instructed yesterday afternoon to be in court this morning.

The sensational feature of the proceedings yesterday developed when the murder of Pearl Bryan was recalled by an answer given by one of the talesmen while he was being examined regarding his competency to sit in the case.

One of the questions asked by Mr. Conner, representing the state, of Orville Appleman, was whether he or any of his friends had ever been accused of a serious crime. He replied that his cousin, Alonzo Walling, had been hanged for the murder of Pearl Bryan. Appleman was immediately excused.

Nine jurors were in the box when court adjourned last evening and the court instructed that they should be kept together, and also informed them that they should not read the local papers.

Dr. Colt's Lecture

Inaugural Event of Club League Course is Strong Discussion of Telepathy.

A splendid audience greeted Dr. Stanton Colt, of London, last evening in the high school auditorium when he delivered the opening lecture in the Woman's club lecture course. Rabbi Ettelson introduced the speaker whose subject was "Common Sense About Telepathy." In a dispassionate and scholarly manner Dr. Colt presented the subject and gave a forceful and convincing argument demonstrating his own convictions. Although the Physical Research society of England has given its sanction to the statement that telepathy is a fact, in the judgement of Dr. Colt it is not proved

and he believes that only through the normal avenues can two human minds communicate with each other. One of the most interesting points made by Dr. Colt was his stand that telepathy, if practiced indiscriminately, would undermine the eternal moral law. That every person should be a free agent and that no one dare violate the privacy of the mind any more than he would be allowed the privilege of entering a home unbidden, seems only safe and right. While so many are dabbling in cultism we have lost the sense of the individual. In closing Dr. Colt said that he is only pleading that there shall not be the sense of mystery.

After the lecture several in the audience responded to the invitation to ask questions which added greatly to the interest of the meeting.

Suggestions for a Young Girl's Party

A mother writing to me to ask about giving a birthday party for her eighteen-year-old daughter omits to mention whether the festivity is to be in the afternoon or evening. For a girl of that age I think the evening is better. She is quite old enough for entertainments held at night, and such celebrations help to initiate her into the usages of good society and in the art of entertaining.

For such an affair the invitations should be in the form of notes, written by the mother, for the girl is not supposed to do the inviting. Her guests being hidden for her. The mother writes directly to the girls and boys she wishes to come, and may use her own discretion as to whether or not she mentions the fact of her daughter's birthday being the reason for the party. Should she do so, it is taken for granted that the guests will send some sort of gift, if only flowers. For this reason, some parents prefer not to have the birthday known previously, not caring to put their guests in the position of being obliged to send presents.

For young folks, cards are a congenial way of passing the evening, and there may be tables for both hearts and encre. The tables should be arranged before the guests arrive. Partners may be assigned by name cards placed at the tables where each guest is to sit. These little cards may be bought inexpensively. They make a pretty souvenir of the evening.

There should be a first and a consolation prize for both boys and girls, and a second prize, if the guests are many in number. Some hostesses now prefer to have one prize for the highest score at each table, omitting the consolation. Tallies and pencils must be provided for each player. It is nice to have a little dish of candy and another of nuts on each table.

If cards grow tiresome "nonsense" games make mirth for all. To play these, one person starts a story of nonsense and, after a couple of minutes, stops in the middle of the sentence, calling the name of the person who is to continue. No excuse for getting out of talking is to be permitted, and the jumble that ensues in the attempt to carry on the thread is extremely funny.

At the close, which comes when every guest has been called upon once, a prize may be awarded to the one considered to have done best, the award being made by vote.

If there is a piano and any one can play, informal dancing will afford amusement to the young folk.

Supper may consist of salad, oysters, ice cream and cakes, with candies, sandwiches and nuts. These should all be placed on the dining room table, which must be decorated with ribbons and candles with colored shades, and flowers, as the ingenuity of the hostess can devise. The boys should serve the girls. It is well to have a maid in the room to remove the soiled dishes.

The mother is in evidence throughout the evening. She is with her daughter to receive the guests, after which duty she spends the evening in an endeavor to have each guest enjoy him or herself.

The most delightful pajamas for children are shown with Mother Goose pictures printed on the downy pink and blue outing flannel surface. In this instance the pattern is printed in blue and white on a light pink ground.

Attractive Reception Gowns for Young Matrons

In designs that will appeal to young matrons because of their smartness and apparent comfort. The two dresses in one-piece models are exceptionally pretty and not difficult to make if the home sewer who wants to copy them recognizes that the elaborate effect is secured by the application of simple trimmings.

As to the coat and skirt costume, the fluting, or ruffling, on the coat makes

an otherwise plain garment, dressy enough for formal wear.

Though decidedly different styles, these three frocks for reception use are

company of relatives and friends. The bride was attended by Miss Marie Tonsing, sister of the groom and the groom's best man was his brother, Charles Tonsing. Charles Snowberger and Henry Beckman acted as ushers.

The bride looked lovely in a gown of cream silk poplin with trimmings of val lace. She wore a veil and carried a prayer book with long ribbon marker. Miss Tonsing wore a lemon colored messeline silk and carried yellow chrysanthemums.

A wedding breakfast was served at the home of the groom on Summit street, and this evening a reception will be held. Later Mr. and Mrs. Tonsing will leave for a trip to northern Michigan. On their return they will begin housekeeping at 1020 Jackson street.

Mr. Tonsing is a stenographer in the offices of Hoffman Bros., and is a man of fine character.

Out of town guests at the wedding are Mr. and Mrs. William J. Beethymer, of Gary; Mr. and Mrs. Robert Harper, of New Haven; Mr. and Mrs. J. H. Spanburg, of Jackson, Mich.; Mrs. Ida O'Brien, of Chicago; Mrs. D. E. Lisle and Mrs. Rielle, of Riverogue, Mich.; Mrs. Lacy, of Wyandotte, Mich.

Evard-Zuber.

A very pretty wedding took place Tuesday morning at 9 o'clock at St. Mary's Catholic church, when Miss Catherine Zuber became the bride of Charles J. Evard. The bride wore a gown of white messeline and carried bride's roses. She was attended by Miss Ida Evard, a sister of the groom. Miss Evard wore a becoming costume of brown wool taffeta and carried red roses. Frank Zuber, a brother of the bride, was the groom's best man. Im-

mediately after the ceremony a breakfast and reception was given at the home of the bride's parents on Erie street. After Nov. 1st Mr. and Mrs. Evard will be at home to their friends at 1314 Summit street.

Target-Howey.

A wedding of much interest to their many friends here was that of Miss Cecelia Howey and Charles R. Target, which took place at the Presbyterian parsonage in Auburn, the Rev. W. M. Elliot officiating. The bride has long been an employee of the Auburn Courier, filling the position of proof reader. Mr. and Mrs. Target will reside in this city, where Mr. Target is employed as a typewriter salesman.

Dr. Colt's Lecture

Inaugural Event of Club League Course is Strong Discussion of Telepathy.

A splendid audience greeted Dr. Stanton Colt, of London, last evening in the high school auditorium when he delivered the opening lecture in the Woman's club lecture course. Rabbi Ettelson introduced the speaker whose subject was "Common Sense About Telepathy." In a dispassionate and scholarly manner Dr. Colt presented the subject and gave a forceful and convincing argument demonstrating his own convictions. Although the Physical Research society of England has given its sanction to the statement that telepathy is a fact, in the judgement of Dr. Colt it is not proved

and he believes that only through the normal avenues can two human minds communicate with each other. One of the most interesting points made by Dr. Colt was his stand that telepathy, if practiced indiscriminately, would undermine the eternal moral law. That every person should be a free agent and that no one dare violate the privacy of the mind any more than he would be allowed the privilege of entering a home unbidden, seems only safe and right. While so many are dabbling in cultism we have lost the sense of the individual. In closing Dr. Colt said that he is only pleading that there shall not be the sense of mystery.

After the lecture several in the audience responded to the invitation to ask questions which added greatly to the interest of the meeting.

Suggestions for a Young Girl's Party

A mother writing to me to ask about giving a birthday party for her eighteen-year-old daughter omits to mention whether the festivity is to be in the afternoon or evening. For a girl of that age I think the evening is better. She is quite old enough for entertainments held at night, and such celebrations help to initiate her into the usages of good society and in the art of entertaining.

For such an affair the invitations should be in the form of notes, written by the mother, for the girl is not supposed to do the inviting. Her guests being hidden for her. The mother writes directly to the girls and boys she wishes to come, and may use her own discretion as to whether or not she mentions the fact of her daughter's birthday being the reason for the party. Should she do so, it is taken for granted that the guests will send some sort of gift, if only flowers. For this reason, some parents prefer not to have the birthday known previously, not caring to put their guests in the position of being obliged to send presents.

For young folks, cards are a congenial way of passing the evening, and there may be tables for both hearts and encre. The tables should be arranged before the guests arrive. A REVIVAL IN VEILS.

The new spider's web veiling is probably the forerunner of those veils, revived from the early nineties, which showed many similar designs, while avoiding actual spots. We had spotted or else quite plain veils for so long; then came the square meshed sort, and this summer a sort of blurring of the big squares, which is being resolved still further into a misty web design. All "freak" veils want careful wearing, but, mercifully, with big hats no straining across the features is possible. It is to be hoped that with the smaller models this tightness will be avoided too, says The Queen.

Never mind how well you like your favorite brand of chocolates, in fairness to yourself just buy one box of He-Mi-La Purity Chocolates and try them. Ask for the box marked H-M-L and see that you get it, for that is one way to get the best.

The smallest dog is probably the Chihuahua of Mexico. It can snuggle in the palm of the hand or may be concealed in a bunch of flowers.

CIRCUIT CHANGES A POSSIBILITY IN 3 LEAGUES

Three-I and Central Association Start the Ball Rolling.

Circuit changes that will affect the Central and Three-I leagues and the Central association are possibilities of the winter months and the first movement was started yesterday at Chicago when the matter is taken up in earnest. A committee from the Three-I, with M. H. Sexton at the head of it, is appointed to confer with similar committees from the two other organizations in the proposed changes ever amount to anything more than one of the bubbles that always appears on the surface of baseball affairs during the winter months. The conference that will bring them about will be held when the Minor Leagues association meets at Memphis in conjunction with the Southern league on November 5. An effort to reach President F. R. Cragson at South Bend this morning brought information from the telephone operators that he is out of town and probably at Bloomington, "West Virginia." He has been at Wheeling and was not scheduled to leave there until last night or this morning.

It is possible that he is on his way from West Virginia to Bloomington, Ill., one of the towns in the Three-I league and this makes it probable that there is more than just rumor at the bottom of the circuit change movement. Danville, Ill., one of the bidders for a place in the Central league, has bought the Deatur franchise in the Three-I and it was formally transferred at the meeting in Chicago yesterday at which Mr. Sexton resigned the presidency to avoid the unpleasantness attendant upon a movement headed by Springfield, Peoria and Bloomington to get his scalp. He is one of the leading figures in minor league baseball and a member of the National Board of Directors and is recognized as one of the strongest men in the management of minor affairs in the country.

The fact that these three organizations are dissatisfied with the arrangement of their circuits and that the Central could easily handle over both Terre Haute and Evansville and save money for the other clubs by making a more compact circuit are matters that give color to the proposition to swap a few towns. Cedar Rapids failed last season to draw the number of people required under the league rules and will be dropped by the Three-I. It is convenient for the Central association and about big enough to be in the circuit. Quincy and Waterloo, both of the association, want in the Three-I and surface indications point conclusively to the fact that a re-arrangement will be found necessary next year. All these things taken in connection with the statement that the Central league owners are dissatisfied with the arrangement and that it will be necessary to cut down expenses next year and one of the ways to reach this is by looting off mileage, strengthens the belief that a shake-up in the circuit is considered whether it ever amounts to anything or not.

The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. WALKOVERS WIN BUT LITTLE SMOKE WIN BUNGALOWS KEEP 'EM GOING THREE FROM THE BRADLEYS

Kelly Gets Inside the 200-Average Fold During the Series. Druggists Show Better Form But Fail to Land a Game.

The Walkovers took three games in the first league at the Brunswick last night, but they couldn't loaf one foot of the route as the Bungalows were up and going all the time and the games were not settled until the last ball was rolled. The team was the lightest proposition of the evening, when both teams rolled good line pins and the winners quit with only seven pins to the good.

Kelly was the best performer and got himself inside the 200-average fold by consistent work in every game. Schlefer and George Harkender fought it out for average for three games on the winning club and the former won out by one pin. Keimlen rolled 195 for two games. The scores follow:

PITTSBURGH BASEBALL DOINGS.

Hyatt Misses Train, May Miss His Wedding—Wilson Misses Coin.

Pittsburgh, Pa., Oct. 20.—Hamilton Hyatt, giant substitute outfielder of the world's champions, is now engaged in a hard race to the British Columbian coast in order to be at his own wedding. Hyatt missed his train for home Monday night and asked a fearful roar when he found the next train would not drop him at home, Victoria, B. C., on Monday until a long time after the hour set for his wedding. He finally left on a later train, vowing that if necessary he would burn all his \$1,500 world's series velvet hiring a special train on the last stage of the journey in order to get there in time for his own wedding.

Chief Wilson, the big outfielder, came close to missing his Texas home this winter also. He dropped his pocketbook containing about \$2,500, including his check for \$1,500 bonus, his last month's salary, etc. There was some talk of losing the Texan found that a young lady in the Fort Pitt hotel had picked it up and insisted that he come to see her personally and get it. Wilson never chanced a liner with more speed than he used getting to that hotel, and he got his own wedding.

Tommy Leach announces that he will invest his world's series coin in pins, and this brings out the fact that Leach already has a large pin farm just outside Pittsburgh with 250 pins on it. He says the life of a pin farmer will be his once he is done with baseball.

GIRLS WANTED TO KISS "BABE" ADAMS

Charles ("Babe") Adams, who pitched three of the seven games of the world's series for the Pirates and won them all, escaped the fate of Hobson only by the quickest kind of work after the return of the champions to Pittsburgh. He made a flying get-away from his home on Mainway street shortly after noon Monday, and deliberately hid from his admirers in the Swearingin, a private hotel, on Craig street.

By actual count there were 435 young women who wanted to kiss him. Accompanying those 435 were at least 500 male admirers, who had accompanied the young women with the desire of seeing them accomplish their purpose.

The crowd gathered shortly after 10 o'clock. "Babe" did not appear. Instead he lurked in the fastnesses of his home until he could stand the strain no longer. Then he slipped out a back way and made a break for the Swearingin.

The crowd got on his trail and for four hours Craig street witnessed a scene of turmoil never before equaled in its history. Before 2 o'clock, according to eyewitnesses, there were at least 1,000 persons gathered in front of the hotel. They cheered and called, then waited a moment and cheered again, but "Babe" failed to put in an appearance. He excused himself to those inside by saying that his wife would prefer not to have him go about the country kissing whom he met.

FORT WAYNE BEGINS TO FILL IN THE INFIELD

Shortstop is Drafted from Madison Team of the W-I. League.

Owner Claude H. Varnell has already taken up the task of filling his infield that was shot into by the draft of John Lindsey by Vernon, Cal., and has drafted Shortstop Cook of the Madison team in the Wisconsin-Illinois league. He has had good accounts of him and the draft was made upon recommendations made by scouts who had seen him work and who thought him fast enough for the Central league.

He has played at Madison for two seasons and is the only player that has been picked up by the Central league over the draft route. The majors and the Class A clubs made such awful inroads in the minors that the Class B owners have little left to pick from and are waiting for the men who are found not quite ripe for fast company and who will be found a class or two for seasoning.

Several of the clubs have already begun to pick up new material for next season. Wheeling has signed Arch Osborne, a young pitcher who was used in several games toward the close of 1909 and also the contracts of Walter A. McClelland, Jack O'Neill, W. A. Garton and Fred Truitt.

Archie Neuschaefer and J. E. "Nick" Carter, who were with Dayton last season, have already signed their contracts and two new players have been added in W. H. Wenzel and Archie Beske. Eddie Goss, the Terre Haute catcher, who was out of the game most of the season with an injured hand, has signed for next season along with A. C. Hogan, whoever he may be.

Harry Ostlick, the old Fort Wayne catcher, who was with Spokane last season, has been drafted by Mobile, but the draft was disallowed as he had already been disposed of.

COBB TO ANSWER INDICTMENT.

Cleveland, O., Oct. 20.—Tyrus Cobb, through his attorney, has announced his intention of coming to Cleveland to answer to the indictment returned against the Detroit star for assaulting a watchman in one of the local hotels. Cobb is alleged to have slugged the plaintiff one night during the season. On one occasion Cobb is said to have professed his willingness to plead guilty. Now he intends to contest the case.

HOW HE CURED AN OLD SORE

I want to recommend S.S.S. to all who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1877 my blood was very impure and I accidentally cut my leg on the sharp edge of a barrel. This, I suppose, made an opening for the discharge of the impurities in the circulation, and a great sore formed. For years no one knows what I suffered with the place, I tried, it seemed to me nearly everything I had ever heard of, but got no relief. The Doctors said I would have to have the leg amputated or else go through life with an angry, discharging sore that would injure my general health. At last I commenced to take S.S.S., and it was but a short time until I saw the place was improving. Greatly encouraged I continued the use of S.S.S. until it removed all the poison from my blood and made a complete cure of the sore. This was five years ago and my leg has remained healed and perfectly sound ever since.

JOHN ELLIS.

108 Wyckoff St., Brooklyn, N. Y.

What S.S.S. did for Mr. Ellis it can do for everyone who is afflicted with an old sore or ulcer. He is just one of the thousands who have cured themselves of these offensive places through the simple process of purifying the blood, and removing the cause of an old sore with this great blood remedy.

No matter on what part of the body a chronic sore may be located, it is kept open by bad blood. The flesh tissues at the place have been broken down and the nerves irritated because the blood constantly discharges germs and impure matters at that spot. Thus a diseased and infected condition is maintained and all efforts of nature to heal the place fail because pure blood is the most necessary thing in the healing of any sore, especially those of a chronic nature.

The impurities in the blood which produce chronic sores, come from different causes. A long spell of debilitating sickness which breeds disease germs in the system, the retention of the natural waste matters of the body because of a sluggish condition of the eliminative members, or even inherited bad blood will produce the infected condition of the circulation that keeps sores and ulcers open. But it does not matter what the cause may be there can be no cure until the blood is purified.

One of the strongest evidences of the deep-seated nature of these places is the fact that local treatment, such as salves, washes, plasters, etc., never have any permanent effect. Such treatment only aids in cleansing the outward impurities of the ulcer while the blood continues in its impure state. Nor will removing the place and surrounding flesh by surgical operation produce a cure. The blood cannot be cut away, the old cause is still there, and in every instance the sore will return or break out in a new location.

S.S.S. cures Old Sores by purifying the blood. It removes every impurity and taint from the circulation, and completely does away with the cause. When S.S.S. has cleansed the blood the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the pain and inflammation are gone, the discharge ceases, and the place fills in with firm, healthy flesh. S.S.S. is purely vegetable, made entirely from roots, herbs and barks of specific blood-purifying properties, and it is an absolutely safe remedy for any one to take. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired because of the drain and worry of an old sore will be doubly benefited by its use. S.S.S. cures old sores by PURIFYING THE BLOOD and removing the cause. Book on Sores and Ulcers and any medical advice you may wish free to all who write.

RIDDER SAYS TAFT WAS LED INTO BLUNDER

Shows Defects in the Wood Pulp Schedule of New Tariff Bill.

Chicago, Oct. 20.—President Taft apparently was led into a serious blunder in the closing days of the recent session of congress when he changed his attitude on the print paper schedule, according to an open letter addressed to the chief executive, and signed by Herman Ridder, of New York, president of the American Newspaper Publishers' association. Mr. Ridder's letter was written some time ago and was made public yesterday following its endorsement by the inland Daily Press association.

Mr. Ridder's letter is as follows: "To the president: "The full text of your address at Winona, Minn., on the tariff bill has just come to hand. With the utmost respect, we submit that your statement respecting the paper schedule shows that you could not have correctly read or understood what the print paper paragraph contained, as it passed the house of representatives. "You were apparently misled by designing men into a serious blunder, when, in the closing days of the tariff conference, they induced you to reverse your previous attitude upon print paper, and changed your notions of what the Mann committee recommended and of what the house of representatives had approved.

"The Mann committee, after a ten months' investigation, marked by unusual thoroughness, reported that a rate of two dollars would cover the difference in cost of production at home and abroad. The draft proposed absolutely safeguarded American paper mills against the serious Canadian tangle which your advice to the tariff conference has since precipitated.

Mills Must Move or Close. "The fixing of the rate on print paper at \$3.75 per ton which you advised, has decided the province of Quebec to prohibit the exportation of its pulp wood and many American paper mills must close or move to Canada to obtain their supplies of raw material.

"The country is now in a fair way for a trade war with Canada because of your apparent failure to correctly read the Mann committee's recommendations. We are threatened with an industrial disturbance, which will involve business interests with Canada amounting to \$285,000,000 per annum.

"We sincerely trust that you can find some method of rectifying the mistake into which you were led. We fully appreciate the difficulties and responsibilities of your exalted office, and we believe you are trying to do the best you can. We know that you must rely upon others for your information. We feel that every citizen is under obligation to help you. Therefore, we write this letter to you.

(Signed) "Yours respectfully, "HERMAN RIDDER, "President American Newspaper Publishers' Association."

SKIN-TORTURED BABIES CURED

Humor Kept Tiny Girl's Face Sore for Months—Grew Worse in Spite of Doctor's Prescription—Screamed when Salves were Applied—Brother Suffered from Tetter.

CUTICURA'S ACTION QUICK AND EFFECTIVE

"I will explain about Kathryn Rishel's cure. She is four years old now. When she was two months she had tetter or eczema on her face. It commenced on her cheeks and spread all over her face. I had a doctor to treat it but it still kept getting worse. I tried many kinds of salve but it only got worse, and when I would grease her poor little face she would scream. I had to put the salve on and then start to walk till she would quiet down. I worried along in this way till she was over one year old. Then I thought I would try Cuticura, as I had used it for myself and it had helped me very much. I used Cuticura Soap and Cuticura Ointment. As soon as I began to use them I saw a difference. She did not need to cry when I treated her face. The Cuticura Remedies commenced right away to make it better. I used several boxes of Cuticura Ointment and used Cuticura Soap all the time and her face was healed. She is four years old now and I do not see any signs of the sore. Cuticura certainly did cure her. "Our little boy had tetter also. He is nearly two. I used Cuticura Soap and Ointment for him and he was soon cured. I used them right away so he didn't get as sore as Kathryn did. Mrs. Blanche Rishel, Okatondale, Pa., Oct. 22, 1908."

For more than thirty years the Cuticura Remedies have been the favorites in tens of thousands of households for the treatment of eczemas, rashes, itching, irritations and other skin-torturing, disfiguring humors of the skin and scalp. Cuticura Soap (25c), Cuticura Ointment (50c) and Cuticura Resolvent (50c), for the cure of Chronic Constipation, are sold in the form of a complete skin cure. Cuticura is sold everywhere. Painful Dyspepsia

A Form of Indigestion Caused by Gastric Irritation from Undigested Food in the Stomach.

No kind of dyspepsia is better marked than that known as "painful indigestion," and it is also a very common affection. Pain, generally of a dull character, is felt after meals, and along with the pain, soreness at the pit of the stomach often exists, and in some cases the soreness is permanent. The tenderness is commonly restricted to a spot in the middle line of the body, immediately below the breast-bone. It often extends upward under the bone, which consequently feels sore on pressure, or the tenderness is felt toward either side. This tenderness is commonly associated with an unpleasant feeling of heat—"a burning sensation"—as it is termed by some persons. There is also a "gnawing" and "dragging," as well as various other anomalous sensations complained of after taking food, and generally within an hour after eating.

As might be supposed the intensity of the symptom is proportionate to the quantity and quality of the meal. When the stomach is empty, a sensation of craving or emptiness gives most trouble. This often causes a false appetite, which, by inducing the person to eat heartily aggravates the sufferings. Thirst generally causes much annoyance; heartburn, water-brash, acidity, nausea, and headache are not infrequent attendants. The tongue is usually coated and from a mere inspection of this organ the condition of the stomach can often be correctly told.

It is a common error with persons who suffer from stomach pain caused by indigestion and gastric irritation, to use such drugs as chlorodyne, Hoffman's Anodyne, and other "pain killers" for its relief. Such treatment is a great mistake. While these drugs afford temporary relief to the dyspeptic pain, they have no effect whatever in removing the cause.

STUART'S DYSPEPSIA TABLETS remove the cause. By completely digesting all the food in the stomach, there is no further possibility of the occurrence of this disagreeable form of dyspepsia with its painful manifestations, and other attendant symptoms. All of the irritation of the stomach, lining and stomach-nerves as the result of the undigested food lying in that organ and undergoing fermentation and decomposition, is quickly done away with.

But not only is the form of dyspepsia which is accompanied by pain cured through the use of these digestive tablets, but also every other form of indigestion, as there are many kinds in which stomach pain does not occur, but where there are many symptoms equally disagreeable, discomforting, disconcerting and discouraging.

Stuart's Dyspepsia Tablets contain, in a highly concentrated form, powerful anti-dyspeptic ingredients, which digest rapidly and thoroughly food of every kind, including proteins, nitrates, carbohydrates, etc. A single grain will disintegrate and digest 3,000 grains of food.

Purchase a box from your druggist at once (price 50 cents), and get rid of the pain, discomfort and other disagreeable symptoms of dyspepsia. Also send your name and address for free sample package. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

him from the country as an alien anarchist, knowing that the minute he is set across the boundary Mexican officials will arrest him and he will be executed.

De Lara is the most important of the anarchists arrested on the eve of President Taft's visit to this city, and he was arrested because he spoke threateningly of Taft and Diaz. The dragnet of the police also captured a Cuban, Miguel Lozano. Lozano rather welcomes his deportation to Cuba because he believes he will escape punishment.

De Lara, however, is a marked man in Mexico, where he has stirred up trouble many times and has been chased across the border on no less than five occasions by the Mexican authorities. Before his arrest he said that Diaz would have him killed if he were caught in Mexico, and in his speech a week ago Sunday night he repeated this statement. Realizing this, he has retained attorneys and will fight his deportation determinedly.

SHOT BY A POLICEMAN.

Alleged Swindler Tried to Escape From Terre Haute Officers.

Terre Haute, Ind., Oct. 20.—When Bicyclemen Smock and Hardy rode up behind F. M. Small and Paul S. Becker at Nineteenth street and Maple-avenue yesterday to arrest them on suspicion of obtaining money under false pretenses, Small ran. He was chased to a corn field in Twenty-fifth street and there shot in the back by Officer Hardy. The men are said to be falsely representing themselves as collectors for the Railway Yardmasters' Union of North America. Small will recover. Superintendent of Police Harvey V. Jones was advised by the president of the Switchmen's Union of North America, of Buffalo, N. Y., that unless they could show written authority from the president of the union no one had a right to solicit funds or advertising in the name of the union.

SAVAGE ISLANDERS SLAY CAPTAIN AND CREW

Details Received of Massacre of Ship's Men in New Britain.

Victoria, B. C., Oct. 20.—Further details of the massacre in New Britain last month received by the steamer Marama yesterday are to the effect that Capt. Lindsay, of the Ketch Raul and ten of his crew were murdered and burned. The trading vessel was looted and also burned.

Captain Lindsay, owner and master of the Raul, prominent in the New Britain trade was off the east coast of New Britain about 200 miles from Herberstone recruiting laborers. About sundown when he anchored his ship for the night a swarm of native canoes came off and the blacks asked that he come ashore as plenty of men were ready to sign as laborers. Capt. Lindsay went ashore and was escorted to a big native house where about a hundred blacks were gathered.

As he stepped in he was struck down from behind with a spear and the blacks sprang upon him with knives. He fell bleeding from scores of wounds and was hacked to death. The body was then dragged out to the beach and burned. The flotilla of canoes then went off to the Raul and blacks swarmed aboard. One after another the ten men of the crew were slaughtered. Then while they lay on the deck, some dead, some mortally wounded, a raid was made on the stores and kerosene poured over the deck and in the holds making the ship a funeral pyre for the murdered men. Ship and victims were destroyed.

Some natives reported the occurrence to the captain of the steamer Canecog, which was in the vicinity. He at once steamed for Herberstone and reported it. A German punitive expedition was being prepared when the Canecog left the islands.

A report was also brought from the islands that the French recruiting Ketch Guadeloupe of forty tons was attacked and wrecked by blacks in the New Hebrides at the same time at Mallele, and the French captain and the native crew of eight massacred, but no confirmation has been received.

MARS ROUTED BY CUPID.

Evansville, Ind., Oct. 20.—It was cupid against the army and when a girl's heart melted Uncle Sam lost a soldier. Henry D. McGregor, 23 years old of St. Charles, Ind., was in the recruiting station here yesterday waiting for his final acceptance when a young woman, flushed and breathless ran up the stairs and into the room. "I've changed my mind, Henry," she said. "How's that?" he inquired. "Don't join the army, for my sake," she pleaded. McGregor changed his mind, too, and the next train carried him and Miss Margaret White home. They will be married immediately. Miss White is 17 years old.

P. T. Strider is the guest of Dr. W. F. Myers at his Barbee lake cottage.

Let Me Tell You Something

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is to blame for her own wretched condition.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what these women say:

Camden, N. J.—"It is with pleasure that I send my testimonial for Lydia E. Pinkham's Vegetable Compound, hoping it may induce other suffering women to avail themselves of the benefit of this valuable remedy."

"I suffered from pains in my back and side, sick headaches, no appetite, was tired and nervous all the time, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound made me a well woman—and this valuable medicine shall always have my praise."—Mrs. W. F. Valentine, 902 Lincoln Ave., Camden, N. J.

Eric, Pa.—"I suffered for five years from female troubles, and at last was almost helpless. I tried three doctors but they did me no good. My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and it has made me well and strong. I hope all suffering women will just give Lydia E. Pinkham's Vegetable Compound a trial, for it is worth its weight in gold."—Mrs. J. F. Endlich, R. F. D. 7, Erie, Pa.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit. If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

WHEN A MAN'S FIFTY

When the average man reaches the age of fifty years, his body begins to creak a little at the hinges. Motion is more slow and deliberate. "Not so young as he used to be" is a frequent and unmeaning thought which troubles itself. Little inconveniences in the way of rich food and stimulating drinks must be foregone. Certain bodily functions, upon which good health and good spirits so much depend, are impaired. As a rule, the weak spot is

THE BLADDER

When this organ becomes affected, even in a slight degree, it gives rise to most unpleasant symptoms. Painful and annoying complications in other organs arise, and a generally disagreeable condition exists. This is particularly true with elderly people. The important feature of the matter is that the trouble can be obviated and cured. A remedy is at hand which is as effective and inexpensive as GOLD MEDAL HAZELDEN OIL CAPSULES. This old-fashioned, time-honored home remedy stands without an equal as an effective and sure remedy for all Bladder, Kidney, Liver and Stomach troubles. It has been used over 200 years, and thousands testify to its efficacy. Lately, however, many worthless and injurious imitations have sprang up. The Pure Food and Drug Law is making it difficult for these frauds. The genuine, reliable, trustworthy Hazelden Oil is named GOLD MEDAL.

Gold Medal Hazelden Oil is put up in two forms, in Capsules and Baiter. Capsules 25c. and 50c. per box. Baiter 15c. and 30c. per box. Be sure you obtain the Gold Medal Truly brand.

NEW SILK MILL BUILDING ON KNITTERS AVENUE

The new silk mill building on Knitters Avenue is rapidly equipped. Six of the large machines have already been installed, two are being unloaded at the mills today and four more are en route. The company expects to have all installed and the mill in operation by November 1, giving employment to at least 200 men and women, in addition to the big force now employed in the Wayne Knitting mills. The new building is a fire-proof structure, three stories and a basement, constructed of iron, concrete and brick. It is located on the west side of the avenue, opposite the main factory building, and north of it will be located the dormitory building described in these columns several days ago. As the name implies, the products of this factory will be silk hose and stockings of a high grade, which will be handled by the salesmen of the products of the Wayne Knitting Mills company. The accompanying cut is a picture of the new mill.

OVER SIX HUNDRED PEOPLE COMING

G. R. & I. to Have Fall Excursion Into City Tomorrow.

OLD SHOPMAN TO BE RETIRED SOON

W. J. Bright Reaches Seventieth Birthday—Shop and Rail News.

If the weather tomorrow morning is pleasant, the Grand Rapids and Indiana company will bring into Fort Wayne upwards of 600 people. The occasion is the annual fall excursion from Grand Rapids and intermediate points to this city and advance information furnished by the agents at the several stations promises one of the biggest excursion parties of its kind the company ever handled into Fort Wayne. Equipment sufficient to handle 800 people will be provided and is likely to be needed. The train will arrive here at 10:30 o'clock a. m. and leave at 7 p. m. "These excursions are a good thing for the merchants, hotel keepers and restaurant

men of the city," said a railroad man this morning. "The excursionists, many of them, come here to do their fall shopping and the party tomorrow will leave several thousand dollars with our business houses."

HAD A FINE MEETING.

Electrotechnics Open Season in Good Shape.

The first meeting of the season of the Electrotechnic club, at the Fort Wayne Electric works, last evening indicated a greater interest than was ever before displayed in the association. There were over 100 people present and taken as a whole it was a most satisfactory gathering. Forty-two applicants were added to the membership roll and action was taken upon twenty-nine others, making the addition to the roll seventy-one. Thomas Ryan was the speaker, his subject being "Salesmanship," and he handled it in a manner most interesting and instructive to his hearers. Mr. Ryan is manager of the company's Cincinnati office and is considered one of the company's most valuable agents. He has been with the firm about fifteen years. The next meeting will be held November 18, when E. N. Tolles, a member of the lecture bureau of the Sheldon school, Chicago, will discuss the subject "Man Building." Mr. Ryan left for his home in Cincinnati today.

WAS SEVENTY YESTERDAY.

W. J. Bright, Old Shopman, Soon to Retire.

William J. Bright, a Pennsylvania shopman, was seventy years old yesterday and in accordance with the rules of the company, must pass to the retired list at the end of the month. Mr. Bright, who is a watchmaker by trade, was born in Separk, Ireland, October 19, 1850, and came to America in 1866, going direct to Pittsburgh and taking employment at his trade. When the war of the rebellion broke out he enlisted in the Thirtieth Pennsylvania regiment and served the enlistment term of three months. When discharged from the service he came to Fort Wayne and took employment as a locksmith with the Pennsylvania in July, 1862. Soon afterwards he enlisted in the Twenty-third Indiana battery and remained in the service until the close of the war, being discharged July 2, 1865. He immediately resumed his old

position with the Pennsylvania company and has been thus employed continuously since. Mr. Bright is probably one of the youngest old men in the city. He performs his daily duties with an agility that would be a credit to a man ten years his junior. The anniversary of Mr. Bright was fittingly observed last evening at his home, 711 East Wayne street, by a big gathering of his friends. The affair was gotten up by S. W. Strickland, G. A. R., assisted by Mrs. Bright, and was a complete surprise to him. There were about sixty present and the program of the evening consisted of a presentation of a silk umbrella to Mr. Bright by Mrs. Fannie Gibson, being made by Mrs. Fannie Gibson; music by Miss Esther Hamann and William Bright, the latter a grandson of the host; and recitations by Miss Gertrude Seelye, followed by luncheon. Mr. Bright is an honorary member of the circle. He is also a member of Lawton-Wayne post, G. A. R., and the Union Veteran Legion.

PASSES ARE GOOD

If Issued on Contract Prior to Hepburn Law.

Anderson, Ind., Oct. 20.—When Judge Austill, in the Madison superior court yesterday afternoon, overruled a demurrer to a complaint against the Cleveland, Cincinnati, Chicago and St. Louis Railway company, he held that the Hepburn act forbidding issue of free passes over railroads did not invalidate contracts made prior to the Hepburn act. William Boland, of this city, sued the Big Four railroad for \$10,000 because he alleged that it has discontinued a free pass he was to have in consideration of a contract by which the Big Four had a right of way and took gravel from his farm.

Judge Austill ruled that the complaint was good and that the Hepburn act cutting off passes does not release the defendant from fulfilling the contract with a consideration equivalent to the value of the pass, which must be determined in the trial.

STONE ADVISES TEMPERANCE.

Head of B. L. E. Wants Men to Abstain From Drink.

An advocate of total abstinence so far as intoxicating liquor goes is Warren S. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers, who in a recent address, said: "Brothers, if you respect yourselves, your families, your employees, the good will of the public, your country or human life do not indulge in the use of liquor on or off duty; save your money; try at all times to render the best service it is in your power to give. Live from day to day just as though you expected to meet your God at any early date, and above all things, do unto others as you would have others do unto you, and you will always come out on top and at the same time you will be admired by your employer and the public in general."

PATIENTS IMPROVING.

Paul Lechtie, whose daughter Anna and wife were so badly burned a few days ago, returned to his duties at the Bass foundry this morning for the first time since the accident. He says both patients are recovering, though suffering severely at times from their terrible burns. The skin came off both arms and hands of Mrs. Lechtie and little Anna is badly burned from the knees to the waist.

REORGANIZED THE PLASTERERS

The meeting at Strodel hall last night in the interest of union plasterers was successful, the craft being reorganized with thirty-seven members, six of them being admitted by card. Another meeting to complete the organization will be held next Tuesday evening. The chief speakers last evening were L. D. Redding and Henry Hostie and to them is due much of the credit for the work of reorganizing the plasterers.

BRAKEMAN HAS ARM BROKEN.

While making a coupling in the Wabash yards at Wabash at 10 o'clock yesterday, brakeman F. C. Evans had his right arm broken between the elbow and the wrist. He was taken to

his home in Peru. A year ago Mr. Evans suffered a fracture of the bones of the wrist of his right arm in about the same manner as was the accident of yesterday.

The Wabash had a satisfactory business in the sale of colonist's tickets the last day on which they were sold. On the night of that date Wabash train No. 7 left St. Louis with four Pullman tourist cars bound for Los Angeles and every berth in every car was occupied. Thus ended one of the most successful seasons of reduced rates on this class the Wabash ever enjoyed.

SAYS CHICAGO WILL SEND WATERWAYS DELEGATION

Lakes-to-Gulf Boomers are Coming to Canal Convention in Fort Wayne.

In a letter today, E. S. Conway, chairman of the waterways committee of the Chicago Merchants' association, promises that Chicago will send a big delegation to Fort Wayne November 10 and 11 to participate in the waterways convention here in behalf of the Toledo, Fort Wayne and Chicago canal enterprise. The Chicago contingent is taking a lively interest in the proposition from a realization that it will vastly add to the value and importance of the waterways projected from Chicago to the south.

Plans for the Fort Wayne meeting were advanced at a session of the general committee on arrangements last evening, though there was regret at the inability of Congressman Ansberry, of Defiance, to be present in accordance with his announced intentions. It was arranged to begin at once the issuance of invitations, and the program committee with Judge O. N. Heaton as chairman, will hold a meeting soon to arrange the program for the convention. It is planned that a portion of the time will be given over to taking the visitors on a tour of the city, and a banquet may be arranged for the second evening.

Congressman Cline was in attendance at the meeting last evening, with his secretary, A. C. Wood, who will give his time to the local committees in preparation for the convention.

Up to this time, in addition to a large number of men of national prominence, delegations have been assured from New York, Chicago, Cincinnati and Toledo, as well as from a large number of smaller cities.

IN THE THEATERS

AT THE TEMPLE THEATER.

Before entering the vaudeville field in which they have made such a success, Mr. and Mrs. Allison, who are one of the big features at the Temple this week, were stars for many seasons of the famous Broadway comedies, "What Happened to Jones" and "The Wrong Mr. Wright." They are remembered by many theater patrons in this city. Their present offering, "Minnie from Minnesota," is one of the best that the Temple has offered in several weeks.

AT THE LYRIC.

"Though All the World Goes Back on You" is the title of a beautiful song written by Miss Rose Swetz, of this city, and will be sung at the Lyric today at all performances. Four new picture subjects will be shown. The excellent show at the Lyric this week is drawing big houses and news and Elford keep the audience laughing all the time with their novelty act. Tom Hefron, the monopedic marvel, is very good and Burham and Greenwood, are very clever young ladies with an act that receives a great deal of applause. The big string chewing contest for Friday night is a great novelty.

ely and Andrew Johnson will be featured as a comedian in the amateur contest.

LULU GLAZER ILL.

Philadelphia, Oct. 20.—The tour of Lulu Glazer in "The Girl from the States," has been definitely postponed on account of her illness. From day to day Miss Glazer's physician hoped that she would rally sufficiently to resume her performances at the Adelphi theater, but last night he announced that she was making such slow progress toward recovery he would advise her to abandon her tour for the present.

"ALCO" SUITS AND OVERCOATS STRIKE THE KEYNOTE OF STYLE.

It is seldom that best styles and moderate cost are combined. In "ALCO" garments a distinctly characteristic and individual style-note is struck—at prices to please the possessor of a modest income as well as those in more favored circumstances. It takes judgment and thought to show such a combination of exclusiveness and price inducement.

That "ALCO" makers possess both is evidenced by our wonderful showing of "ALCO SYSTEM" clothes for Fall and Winter. All the latest effects—the pleasing little kinks in the newest shades and color combinations.

Is Called to Our Corset Department
for One Week, Beginning Oct. 21

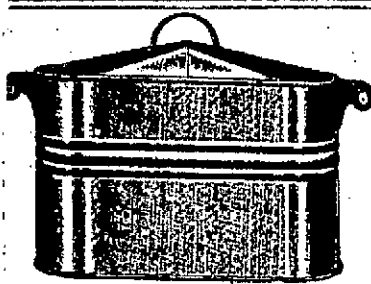

We will have with us in our corset department a pupil of the designer of the Redfern whalebone corsets. She comes to us particularly to explain the newest models for the fall season and to explain to our customers the supremacy of whalebone as a corset boning. The individual talk will be a practical demonstration of the merits of these corsets. You are not expected to buy, but we should like you to "get acquainted" as it were with your Redfern style and when you need a corset you will know just your Redfern model to ask for. Miss Grieves will be with us from October 21 to October 27. She will also discuss figure fashion and style generally.

Redfern stands for quality wherever you see the name, whether dress or corset. Dependable for correctness of style, perfection of fit and making.

The long skirted models in Redfern designs, cut either round, square or pointed, are most comfortable and shapely. Wonderful figure designing is shown in these corsets. Boned with the purest Arctic whalebone and equipped with the reliable
